Aug 2015 to Aug 2017

Project: Airlines Reservation Project Duration: Jan 2017 to Aug 2017
Language & Technology: Angular2, Typescript, HTML5, LESS
Overview: Worked in TDD(Test Driven Development)
The application is used for booking flight tickets by end users and Agents. Our UI sends and receive data in JSON format from the backend JAVA platform (API). Thereafter, Java application communicates with the different API's and Mainframe system. Used JWT (Json web token) and local storage.
* Used custom components for Modal, Alert, Error, Input, Drop-down, Pattern-restrict, Creditcard etc.
* Writing Unit test cases using Jaismine and End to End using Protractor.
* Integration with the REST services.

Project: SITA Visa/Passport Management System Duration: Aug 2015 to Dec 2016
Language & Technology: Angular Js 1.5, TypeScript, Less, Grunt, Bower
Overview: The application is used for granting Visa's/Passport to the applicants by the government of the country.
* Writing Optimized code by reducing watches and using one way binding where ever possible.
* Tortoise SVN for versioning and Jenkins as a build tool.
* Used bower components like Ui-router, spinner, translate.
* Grunt task runner like plato.js(the maintainability score based on the code complexity), sonarRunner.js(Static code analysis of the javascript generated from the typescript), aliases, clean, connect, copy, imagemin, injector, jshint, json-generator, karma, less, modernizr, protractor, svgmin, ts, tslint.

 **Infogain** as Assistant Consultant
Dec 2014 to Aug 2015

Project: Liveops
Language & Technology: Angular JS, HTML5, JavaScript, jQuery, CSS
Overview: Create and customize web pages using HTML and CSS.
* Object Oriented Programming/ Object Oriented JavaScript OOJS
* Used AJAX
