Result-oriented Professional with over 5 years of experience in Project Management, Data Science, Machine Learning, Business Process Management, Business Intelligence, Operations, Digital Strategy, Business Modeling, Data Visualization, Business Intelligence, AWS

Work Experience

• Miba AG as Digitalization Consultant -Digital Office Apr 2019 to Till Date

Led and grow the Data Science and Machine Learning team of 8+ people in a dynamic and cross-cultural environment
* Champion the use of Data Science practices across all aspects of our products and across group-wide business divisions

* Develop data-driven insights & solutions with advanced analytics (machine learning, deep learning and statistical models) to extract insights from large proprietary machine data sources (millions of production data, terabytes of imagery and corresponding production/material/test-rig data)

* Identify, implement, and present results of research on novel ways machine learning approaches can improve decisions, add value to services, and contribute to the advancement of ideas into the machinery & production

• Miba AG as Project Manager -Analytics & AI Oct 2017 to Mar 2019

->Miba Sinter Brazil

* Post-Merger Technological integration of a newly acquired plant from MAHLE in reporting and dashboarding
* Collaborated with consultants and functional heads to streamline multiple go-lives, ensuring minimum downtime and successful integration of reports; switch from Cognos to Microsoft Power BI with support of Microsoft Inc. Austria
* €230k annual operational expense reduction in licensing and partner costs

-> Miba Service Centre China

* Established data analytics product from zero to launch Miba AG Austria
* Served as a Scrum Master for firms' first smart component i.e. Intelligent bearings: using advance deep learning (RNN)
* Actively promoting agile mindset in a cool team of Data Scientists and Engineers, removed impediments ensuring continuous deliverables

• Eaton Corporation as Business Analyst/ Scrum Master - Data Science (Sales and Marketing Centre) Jun 2017 to Oct 2017

Led daily stand-ups and scrum ceremonies for the team. Work with product owners to groom the backlog and plan sprints. Track, escalate and remove impediments for supply chain management software development

* Assisted various members of the project team including development, technical and business team members to
