 **IBM India Pvt Ltd** as Developer -SAP Smart Assist  
Sep 2006 to Mar 2014

Projects Handled  
As Developer - SAP Smart Assist  
As Test Lead - EMC SRDF, GLVM, Custom Verification API PowerHA S M Smart Assists

Roles & Responsibilities  
Designed and developed PowerHA components to enable integration of SAP HA Framework.  
Deployed SAP NetWeaver Installation/Configuration with DB2, Oracle and MaxDB with PowerHA for customers like Aramco.  
Worked with configurations on SAP NetWeaver layout and instances (A) SCS, ERS, AS with different setups like local FS, Global FS, and NFS.  
Applied SAP HA best practices.  
Designed and developed a new PowerHA feature for SAP LiveCache Master/Standby. This feature depended on SAP APO transactions.  
Expertise in SAP MaxDB OLTP/LiveCache Installation/Configuration/Instance creation  
Worked over DS8K/SVC Copy Services like PPRC metro/global mirror and flash copy.  
Basic knowledge in Expect programming.  
Worked extensively with Power Virtualization setting up servers, clients for storage and network.  
Collaboration with Globally spread team.  
Contributed as test Lead for testing features like GLVM, EMC SRDF and custom verification API  
Setting up test environment for both stand-alone and PowerHA configurations of GLVM.  
Opened stop shipper defect.  
Developed Automation script which will configure GLVM in both synchronous and asynchronous setups. This greatly reduced the effort and time required to setup GLVM on AIX and was used by several teams in AIX.  
Planned test effort and managed test resources - Track progress and defects  
Worked on performance bench marking
