Last Active: 19-Jan-21

Last Modified: 19-Jan-21

Summary

Senior JAVA developer with 4 years of proven experience in BFSI domain. Experience includes, developing Banking Applications from the scratch, developing Payment Services APIs to reduce the time taken for the payment by the end user and developing IAM services by revamping old IAM services. Experienced in using Data Structures and Design Patterns. Proven experience in working in fast paced environments and critical/high priority projects with early deadlines. Experienced in working under Agile methodology

Work Experience

TCS as Systems Engineer -Java
Dec 2016 to Till Date

PROJECT DETAILS

KILL LEGACY PayPal.Inc MAY 2020 ? PRESENT

Actively taking part in Design, Document, Development, Deployment and Testing of the application

Migrating the legacy C++ code to Java

Building scalable RESTful APIs for different payment features using microservices architecture and Spring Boot framework

Used Junit and Mockito for unit testing and used Postman for testing the application in different environments

Using PMD and SonarLint to fix source code issues in the development phase.

Following Agile methodology

Working with CI/CD approach

SAM RETIREMENT PayPal.Inc AUGUST 2019 ? APRIL 2020

Built new REST APIs using microservices architecture and Spring Boot framework for IAM services

Successfully revamped legacy XPRESS code to Java 7

Actively took part in Design, Document, Development, Testing and Deployment of the application

Worked on different modules: Change User, Vendor Management, Batch User Creation

Used TestNG for unit testing and Postman for testing code in QA, UAT and SANDBOX environments

Wrote SQL queries to interact with DataBase

Worked with CI/CD approach

Used SonarLint to identify bugs and code quality in the development phase.

CONSUMER CREDIT PayPal.Inc MAY 2019 ? JULY 2019

- Involved in analysing Node.js application
- Created mocks of service responses
- Assisted team of testers in understanding the application

NATIONAL E-GOVERNANCE SERVICES LTD JUNE 2017 ? APRIL 2019

- Involved in FullStack Development of the application
- Successfully built Information Utility Web Application from the scratch
- Involved in Design, Document, Analysis, Development, Testing and Deployment of the application
- Used HTML5 for front end, Core Java for middleware and Hibernate and SQL in the backend
- Built various modules: Login, Registration, Consent Module
- Involved in solving show stopper bugs
- Involved in building APIs using RESTFul Web Services for internal usages
- Used SonarLint to identity bugs and code quality in the development phase.
- Led the deployment team along with development of application
- Worked with CI/CD approach

Education

UG: **B.Tech/B.E. (Mechanical)** from **Adichunchanagiri Institute of Technology** in **2016**
