Work Experience

 **Indegene Private Limited** as Business Analyst
Sep 2020 to Till Date

Basically, I was gathering requirements from clients, preparing documents such as BRD, FRD etc. Clarifying queries of developers and performing UAT.

Worked as Business Analyst for one of the premier pharmaceutical company in the world. Worked and delivered some vital healthcare websites

Skilled in Identifying and Analyzing Business Requirements, Solution Design, Gap Analysis, System and Integration Testing, User Acceptance and Training.

The main aim of this project was to develop a responsive web application for Spiriva Respimat which is primarily used for COPD and Asthma Patients.

There was a splitter page which will redirect the user to respective Asthma and COPD for Spiriva Respimat details.

Was involved in complete SDLC cycle starting from requirement gathering, preparing documentations such as BRD, Minutes of Meetings, FRD, etc.

Was helping developing team for clarifying the requirements and resolving their queries.

Acted as a liaison between Client team, Development team and Application testing team.

Was preparing UAT tracker and trying to identify issues by thorough testing.

The backend development is done using Drupal 8. The Front end is done using HTML, CSS, Java Script, jQuery and Bootstrap.

* Skilled in Identifying and Analyzing Business Requirements, Solution Design, Gap Analysis, System and Integration Testing, User Acceptance and Training.

* The main aim of this project was to develop a responsive web application for Stiolto Respimat which is primarily used for COPD Patients.

* Was involved in complete SDLC cycle starting from requirement gathering, preparing documentations such as BRD, Minutes of Meetings, FRD, etc.
