Summary

Thorough SQL Developer with expert grasp of SQL code generation, analytics, reporting and business intelligence. Diverse knowledge of complex T-SQL coding instances. Conversant in up-to-date and legacy programming languages, standards and tools. Adept in leading all stages of software development and troubleshooting.

Work Experience

American CyberSystem as Software Engineer
May 2018 to Till Date

Created optimal technical solutions to user needs through research and in-depth system analysis.

Developed, implemented and optimized stored procedures and functions using T-SQL.

Analyzed existing SQL queries to identify opportunities for improvements.

Built useful reporting deliverables to properly document analysis results and provide performance improvement feedback.

Documented and analyzed business reports for prompt communication, follow-up and ongoing support.

Drove data analysis, resolving complex business issues and proposing long-term system solutions.

Managed workload independently but collaborated with colleagues to complete larger scale tasks in distributed team environment.
