## Summary

To seek a full time work opportunity in a company where I can learn and grow and also be able to deploy my potential for personal and institutional blooming.

## Work Experience

### Amazon Indian Development Center as Process Associate Feb 2018 to Aug 2019

During this period, I was a part of Amazon's pricing team. As an associate in this process, I was expected to give competitive pricing decisions for the company in the North America and Turkey regions respectively. I was one among the seven associates selected as a part of the pre-launch Pilot team for Amazon Turkey. 1.5 years of experience working in the corporate sector. I have had an opportunity to work with Amazon India Development Center located at Hyderabad as a process associate. Also, been a part of Amazon Visual Operations team. This process deals with the inventory management of the company's various fulfillment centers across the United States. This project is a part of Amazon Robotics. The operations on these inventories are performed by robots which in turn are monitored by the analysts of the AVOC team. I have been simultaneously working as a part of a new project, which dealt with the operations specifically at JAX2 (Amazon fulfillment center) on experimental stage to improve the output generated by the machines by using certain machine learning techniques.

### Amazon Development Centre (India) Pvt. Ltd. as Process Associate Feb 2017 to Aug 2019

As an associate in this process, I was expected to give competitive pricing decisions for the company in the North America and Turkey regions respectively.
