

Asif Anis

Software Engineer seeking role in Application Development, Data Structures, Core Java, Algorithm Development, Multithread Programming, Serialization, Python, OOPS, Linux, Panda

Current Designation: Software Engineer

Total Experience: 1 Year(s) 1 Month(s)

Current Company: Samsung Research Institute

Highest Degree: B.Tech/B.E. [Electrical]

Current Location: Noida

Pref. Location: Bengaluru / Bangalore, Gurgaon, Mumbai

Functional Area: IT Software - Application Programming / Maintenance

Role: Software Developer

Industry: IT-Software/Software Services

Marital Status: Single/unmarried

Key Skills: Software Engineer, Software Developer, Application Development, Data Structures, Core Java, Algorithm Development, Multithread Programming, Serialization, Database Architecture, Python, OOPS, Linux, Panda

Verified : Phone Number | Email - id

Last Active: Jan-Mar 2021

Last Modified: Jan-Mar 2021

Summary

An IIT Graduate and an Entry-level Java Developer with 3 years (including college and internship) of comprehensive knowledge in OOPS concepts (Data Abstraction, Encapsulation, Inheritance, Polymorphism) and basic Java constructs like loops and data types. Understanding of Exception Handling, Generics, Synchronization, Serialization & De-serialization and Concurrent Collection. Familiar with Python language; knowledge in Libraries like NumPy, SciPy, pandas, Keras, ffmpeg, TensorFlow, OpenCV and Platforms (iOS, Windows, Linux). Implemented a Taxi Service Application in college to find minimum shortest route between the destination and source while managing real time request using Java Programming Language. Capabilities in performing research and updating the knowledge required for the job using new internet and intranet technologies and software product.

Work Experience

Samsung Research Institute as Software Engineer

Jun 2019 to Till Date

Participated in company-wide annual competitive event Technovate
Filed pending patent for the work done in Technovate
Developing & implementing a new algorithm to identify surrounding audio content
Developing user interfaces to internet or intranet applications by setting expectations and keeping the functions and features on priority
Integrating applications by designing database architecture and server scripting
