Work Experience

Temenos India Pvt Ltd as Senior Software Engineer

Sep 2015 to Till Date

Project #1 :

Organization : Multifonds, Bangalore

Client : JP Morgan, BBH

Environment : Developer Suite 11g and Oracle 10g/11g/12c/18c/19c

Role : Developer

Duration : July-2019 to till date.

Description:

Global Investor is a transfer agency and investor servicing system that supports global assets across 20+ fund domiciles. It handles both traditional and alternative funds with STP rates in excess of 75%, with investors resident in more than 160 countries across the globe.

Multifonds Global Investor consolidates investor servicing and transfer agency operations onto a single, industrial-scale platform across all investment fund types. It delivers the benefits of scalability and control demanded by traditional funds such as 4-eyes processing and flexible distributor/commission structures. Multifonds Global Investor supports a growing set of regulatory and tax requirements across jurisdictions such as Anti Money Laundering measures and most recently FATCA.

Multifonds Global Investor benefits from the proven control and scalability that the platform provides. It includes 4-eyes checking on all static data and additional re-keying features on transaction processing, control reports, full audit trail, investor risk adequacy check and linking order processing with fund rules including AML/KYC and transaction limits. It fully supports daily NAV processing across a wide range of agents and commission structures in the high scaled and automated mutual fund market. Depth of functionality includes the required regulatory and tax rules relevant to each jurisdiction, as well as highly flexible commission and fund distribution support.
