Summary

Over 24+ years of experience in Software and Embedded product engineering in various roles extending from RnD engineer, FW developer, Product Owner, Program manager to Account Manager
Strong 16+ years of Product Engineering experience in Medical devices and Healthcare practice
Proven 10+ years of Agile coaching experience in the areas of Kanban, Scrum, Lean-Agile, SAFe 5.0 and Agile Project Management
13+ years of extensive Agile Product Delivery Experience having successfully completed programs in cross functional product development environment with distributed teams
Proven professional skills in all phases of product and software development life cycle, right from ideation, scoping, project planning & scheduling, cost & efforts estimations, development, change management, system integration & testing, DevOps, quality measurements and EOL support

Work Experience

Capgemini Technology Services Ltd., as Director (Delivery) -IT Oct 2004 to Oct 2004

Aug 2011 - Present: Director (Delivery)

Oct-2008 - July-2011: Program Manager

Oct-2004 - Sep-2008: Project Manager

Digital Engineering and Manufacturing Services (DEMS) group

Technology Stack: C, C++, C#.Net, Java, SQL, Embedded systems, System Engineering, IoT, Cloud Computing (AWS) etc.

Team Size: Ranging from 80 to 110

Overall Portfolio size: Ranging 6 to 8 Mh USD

Tools: TFS, JIRA, Rally, Live Link, MTM, Code collaborator, Redmine, Clear case, Clear Quest

Test Automation tools: QTP/UFT, WinRunner, AscentialTest, TestComplete, Cognitive QA Tools

Major Accounts:

Lean-Agile and SAFe Portfolio Management

Japan based Global leader manufacturer of Class II Diagnostics Imaging products

Global Diagnostic and Patient Monitoring medical devices manufacturing giant, in Europe

US based Global Class III Cardiovascular devices manufacturing company

World leader in Storage devices manufacturing company in Japan and India captive

Customers are major giant, manufacturer of Class II medical devices like CT scan, MRI, X-Ray, Mobile surgery, PACS and other diagnostic imaging and Enterprise applications and products

The US customer is major Class III cardiovascular device manufacturer like pacemakers, ICD, IVDs

Executed various types of projects like development of core functionalities, enhancements, migration, porting, platform sustenance, escalation incidence management
