## Summary

A growth oriented profile in a company where my skill and knowledge is effectively used for the success of the company.

Have 2 years of experience in Devops and Java Development.

Hands on Experience in Java , Rest Webservice, Angular 5 and Hibernate .

Understanding on Spring Boot Framework.

Experience in Devops tool like Jenkins, Docker, SonarQube, Jfrog , Kubernetes,

Worked on Security tools like Archerysec and Trufflehog.

Setting up end to end CI CD pipelines for automated deployments.

Good track record that demonstrates self motivation, creativity.

## Work Experience

**scientific games** as Software Engineer

Oct 2020 to Till Date

devops engineer

**Mindtree Ltd** as Devops Engineer

Jun 2018 to Oct 2020

Key Responsibilities :

Writing automation Scripts and functions for Jenkins sharedLibrary, Jenkins DSL

Jobs or .Seed pipeline.

Creating Pipeline using Terraform/Packer as IaC in which it will be used for creating AMIs, Instances and security groups.

Project 1 :

Project Name GI Devops

Environment Linux

Tools Jenkins, Maven, Gradle, Github, XLD

and XLR, PCF

Duration From Sep,2019 - Jan,2020

Mindtree LTD (India)

Devops Engineer

Organization

Role

Description:

The project was to automate the deployments of different Java DB or DotNet applications. The project included setting up of Jenkins CI CD pipelines integrating the tools like SonarQube and Jfrog Artifactory and writing groovy scripts and deployments of DB and DML components with the help of XLD tool. Also worked on creating POCs on PCF or Docker Security.

Project 2 :

Project Name Devops COE

Environment Linux

Tools Jenkins, AWS, GitHub, SonarQube,

Tomcat, Maven, Terraform, Packer,

Docker, Chef, Angular 5, ArcherySec,

Snyk, Anchore Engine

Duration From Jan,2019 - Aug,2019

Mindtree LTD (India)

Devops Engineer

Organization

Role

Description:

Have written automation scripts and functions for Jenkins SharedLibrary, Jenkins DSL Jobs or Seed pipeline. Created pipeline using Terraform/Packer as IaC in which it will be used for creating AMLs, Instances, and security groups on the go. Created accelerators on seed pipeline with parameterized build in Jenkins to accept and build another automated CI/CD pipeline job which will build and deploy a Java application. Also have created a website for the project using angular5 and deployed it in ElasticBeanStalk after containerizing it. Have written scripts and docker compose files to integrate different security tools like ArcherySec, Trufflehog, ZAP testing to deploy a java application in a secured way.

? Project 3 :

Project Name Training(Mindtree Internal)

Environment Windows 10

Tools Java8, angular5, Springboot, Maven,

Hibernate, JPA, MySQL

Duration From Aug,2018 - Sep,2018

Mindtree LTD (India)

Java Developer

Organization

Role

Description :

Worked on java8 and angular5 to create end to end micro services for an application. Here I have used Spring boot and hibernate framework. Have got the basic knowledge on the agile framework and Kanban Board in Jira.

## Education

UG: **B.Tech/B.E. (Electronics/Telecommunication)** from **Maulana Abul kalam Azad university of Technology** in **2018**

## IT Skills

Skill Name	Version	Last Used	Experience
Java, Groovy, Docker, Git			
Jenkins, SonarQube, Splunk			
Kubernetes, Maven, Gradle, AWS, Azure			

## Languages Known

Language	Proficiency	Read	Write	Speak
English				
Hindi				
Bengali				

Affirmative Action

Physically Challenged: No

Work Authorization

Job Type: Permanent

Employment Status: Full time
