Summary

I am a BE graduate currently working as a Senior System Engineer in Infosys. I have an experience of 3 years in Financial Crime and Anti Money Laundering Domain. I have worked on BAE designed tools like Detica and NetReveal. Currently I am engaged in designing the solution for customer risk assessment model which classify and assign the calculated risk to the onboarded customers. I have a good knowledge on various Banking processes like Customer Risk Assessment, Customer/Payment Screening and Compliance reporting. I have also worked in the Support and Maintenance team where I managed multiple P1/P2 incidents including live issues on day to day basis. I was also recognized for successfully migrating the manual deployment process to Devops framework.
