Summary

- * 12 years of IT experience in Development and Quality Assurance and BA
- * Key areas of work in this 10-year tenure include Development, testing, Management, onsite coordination and Business analyst
- * Have sound knowledge of USA and Canada auto and home insurance business
- * Fast and Self-learner, self-motivated and adaptable
- * Good problem solving and debugging skill
- * Ability to handle multiple tasks and a team of multiple team members
- * Excellent communication and presentation skills with a Customer Oriented attitude.

Work Experience

Syntel pvt ltd as Project Team Lead
Aug 2008 to Till Date

- * Have worked on a tool (Interlink) with Tenfold language, have implemented around 50 plus individual projects in this system
- * The project work was dealing with maintenance of policy system of well-known US and Canada based Insurance Company.
- * Key activities include development, enhancement, defect fixing, quality assurance, running database SQL's etc
- * Along with development I was continuously involved in manual testing of all my projects and have good knowledge of test plan creation, execution of test cases, baseline testing, performance testing, code testing etc.
- * Have 10 month Onsite exposure where I was posted to Northbrook, USA. In this 10-month tenure I closely worked with Business and operations team at our Client location and coordinated with offshore team
- * The work at onsite was related to DB maintenance and it included extracting incorrect policies from the database of policy admin system and correcting the data with the help of oracle SQL's

Projects

- Project Title:** Allstate, Interlink & Ecomm
Client: Allstate Corp.
Nature of Employment: Full Time **Duration:** Nov 2008 - Apr 2017
Role: Project Leader **Onsite / Offsite:** Offsite
Project Details: Interlink is a policy administration system which is built on universal application framework and uses Tenfold language as a front end and oracle as backend
 Over the time I worked in different teams of this project which involved coding and testing of different areas like Team maintaining User screens, Team for premium calculation and rating part, Team for underwriting, Team for Insurance policy correction
 Over the period of time I also worked as BA(Business Analyst) for few projects and was involved throughout the requirement gathering and Business requirement document creation phase.
 Given below is the detailed summary
 Coding in TenFold/UAC ++
 Build hierarchical data sets, front-end screens using transactions, TenFold language functions to implement server-side functionality

 Writing SQL queries
 Write complex Oracle SQL queries to fetch the desired data and fine-tune long-running queries for database performance optimization
 Designing Database Model
- Project Title:** Horaceman
Client: Horaceman
Nature of Employment: Full Time **Duration:** Sep 2008 - Nov 2008
Onsite / Offsite: Offsite
Project Details: I joined as a fresher in this project and was involved in manual testing
 Used to test screen of a policy admin system for User interface and functionality
