Summary

Good Knowledge in building applications with Machine Learning, RPA, NLP and Python.

* Experience in creating mature Data science pipelines encompassing Data standardization, Feature extraction, model validation and optimization.

* Good knowledge of Machine Learning supervised and unsupervised algorithms such as Linear Regression, Logistic Regression, Random Forest, Decision Tree, K Nearest Neighbor, K Means, SVM and LSTM.

* Statistical knowledge on time series models, generalized linear models, and forecasting techniques.

* Good understanding of Linear and mixed integer optimization and discrete event simulation.

* Great understanding of Principal Component Analysis (PCA), Dimensionality Reduction, Curse of Dimensionality, Gradient boost, bagging boosting concepts.

* Statistical knowledge of Central limit theorem, Gaussian distribution, z-score, chi square test, hypothesis testing. Capable of self-teaching new algorithmic methods easily.

* In depth knowledge on performance measurement

Work Experience

GeBBS Healthcare Solutions as Data Scientist

Mar 2020 to Till Date

MVC, Angular, Machine Learning, RPA, NLP and Python

Kale Logistics Solutions as Senior Software Engineer

Nov 2017 to Feb 2020

3i InfoTech Consultancy Services as Software Engineer

Aug 2013 to Nov 2017
