## Projects

- Project Title: Cal SAWS - Online**  
 Client: California Statewide Automated Welfare System (Cal SAWS)  
 Nature of Employment: Full Time  
 Project Location: Bengaluru  
 Role: Module Leader  
 Skill Used: Core Java, Spring Boot  
 Role Description: Identify and analyze user requirements. Prioritize, assign and execute tasks. Create technical documentation for the application. Develop and test the application. Debug and troubleshoot the issues. Provide technical mentoring to associate developers  
 Project Details: Cal SAWS is the case management system for county eligibility staff that will provide CalWORKs, CalFresh, Medi-Cal, Foster Care, Refugee Assistance, County Medical Services Program, and General Assistance/General Relief to children, families, and individuals in all 58 California counties. It will encompass the following functions: eligibility determination, benefits calculation, benefits issuance, and information management. This Project is dedicated to hosting excellent case management for eligibility workers to efficiently distribute benefits to participants.  
 Duration: May 2020 - Till Date  
 Onsite / Offsite: Offsite  
 Team Size: 7
- Project Title: CalHEERS - Portal**  
 Client: California Healthcare Eligibility, Enrollment, and Retention System (CalHEERS)  
 Nature of Employment: Full Time  
 Project Location: Bengaluru  
 Role: Sr. Programmer  
 Skill Used: Core Java, Spring Boot  
 Role Description: Identify and analyze user requirements. Create technical documentation for the application. Develop and test the application. Debug and troubleshoot the issues. Provide technical mentoring to associate developers.  
 Project Details: The California Healthcare Eligibility, Enrollment, and Retention System (CalHEERS) is an automated Online Single Streamlined Application that Serves as the consolidated system support for eligibility, enrollment, and retention for the California Health Benefit Exchange (also known as Covered California), Medi-Cal, and Healthy Families. Streamlines resources from which individuals and small businesses will be able to research, compare, check their eligibility for, and purchase health coverage CalHEERS supports account creation, consumer application, eligibility rules, and health plan selection for insurance affordability programs.  
 Duration: May 2018 - May 2020  
 Onsite / Offsite: Offsite  
 Team Size: 20
- Project Title: NBC-SOA**  
 Client: National Bank of Canada  
 Nature of Employment: Full Time  
 Project Location: Bengaluru  
 Role: Programmer  
 Skill Used: IBM Websphere ESB, IBM Datapower  
 Role Description: Identify and analyze user requirements. Create technical documentation for the application. Develop and test the mediation module. Debug and troubleshoot the issues. Provide technical mentoring to peer associates.  
 Project Details: The project is aimed at reducing the manual operations and operating costs (i.e. archiving, documents, printing, etc.) in National Bank of Canada. The project concentrates on making these processes online by creating an end to end digitization and/or leaner processes. This way the customers don't have to do any manual paperwork for the mortgages. It will also allow the customer to complete the transaction immediately. SAP CRM (web portal) and Mobile Application are the Front Ends and Legacy Mainframes systems are Backend for this project.  
 Duration: Mar 2016 - May 2018  
 Onsite / Offsite: Offsite  
 Team Size: 10
