## Summary

Having 3 years of experience in IT industry in the Salesforce.com CRM Platform both as Administrator and Developer and I would like to continue my career in Salesforce Platform to obtain a creative and challenging position in an organization that gives me an opportunity for self-improvement and leadership to continually upgrade my technical skills and knowledge. As a Salesforce Developer, the basic activities involved in the projects are:

- \* Involved in various activities of the project, like information gathering, analyzing the information and to showcase implemented functionality. Work with business partners to realize the full capabilities of Salesforce CRM.
- \* Designed and developed Apex Classes, Controller Classes, Apex Triggers and worked for improving code coverage. Hands on experience in writing queries using SOQL and SOSL in Apex Classes and Triggers. Created Change sets for code migration and Test Classes for test coverage.
