Work Experience

Cognizant as Software Developer

Apr 2019 to Till Date

Having 5 years of Professional experience in IT Industry on MSBI(SSIS,SSRS) and SQL server technology.

Beboin Info Pvt Ltd as Developer

Apr 2015 to Mar 2019

PROJECT 1 # : Enterprise Loan Management System

Client : Manulife Financial, Toronto, Canada

Technologies : SSIS, SSRS, SQL Server 2008/2012/2014

Role : SQL & SSIS, SSRS Developer

Description: The Enterprise Loan Management system (ELMS) provides canned reports for general operation. It also integrates a reporting services interface to allow clients to modify existing canned reports or create new and fully customized reports as well as scheduling them. An ELM is the vendor's package that Manulife employed to manage their Mortgage portfolio. Midland, the vendor, has indicated that they are not in the business of custom report writing. They will ensure that ELMS contains the basic reports that are generally agreed upon by the client community. Any other custom reporting specific to a particular client will no longer be developed by the vendor; it has the set up an environment allowing each willing client to develop their own customized reports. We Manulife develop the custom reports as per the business

requirements and deploy on to ELMS for business use.

Responsibilities:

- * Design Reports in SSRS.
- * Upload the SSRS reports on SharePoint.
- * Creation of reports in SSRS from the cube and ad-hoc reporting in excel.
- * Technical Design Documents for the BI development work.
- * Creating ETLs for data available for different reports.
- * Monitor and review the jobs on daily basis.
- * Created Stored Procedures to transform the Data and worked extensively in T-SQL for various needs of the transformations while loading the data.
- * Involved in performance tuning using indexing (Clustered Index, Non Clustered index) tables.
- * Created and rebuilt multi-dimensional cubes using SSAS to support business reporting and forecasting process.
- * Written and reviewed functional specifications, performed unit and system tests, troubleshoot and implement logged bug fixes.
- * Designed and Developed Technical specifications for the packages created, for future reference as per the client's request.
- * Involved in troubleshooting at database levels, error handling and performance tuning of queries and procedures.
