## Work Experience

### **Aricent Technologies** as Scrum Master May 2017 to Till Date

Cisco Unity Connection (December 2019 to current)  
Project Description Voicemail Messaging System  
\* Working as a Scrum Master where I am involved in conducting daily stand-ups, Sprint Planning and Sprint Retrospective. Also, involved to review and map the User Stories.  
\* Worked in automation testing on TCL framework and took the automation pass results to 99%.  
\* Innovated the Test Planning by introducing the Mindmaps which decreased the time spent in creating and reading the Test Plan.  
Cisco CUPS 4G Advanced (July 2019 - December 2019)  
Project Description  
\* Developing the 4G advanced architecture  
\* Worked in defects fixing for the 4G advanced Control Plane - User Plane separation in CUPS.  
\* Directly worked with the customer to resolve the defects and met the timelines.  
Prototype Project for a client (March 2019 - June 2019)  
Project Description: Detecting emotions of people through camera and finding the number of people in a queue to raise alarm to the admin in a multi store for better offline store customer experience. Used object detection using Machine Learning through Neural Networks.  
\* Worked as a Business Analyst in this project. Requirements were gathered from the client.  
\* Collaborated with the team and helped them understand the requirements. Daily progress of the project was monitored. Any changes in the functionality was analysed and decisions were taken accordingly. Took the project to end to end completion.  
Cisco Unity Connection (May 2017 to March 2019)  
Project Description Voicemail Messaging System

### Important
