Work Experience

- Infosys Limited** as Senior System Engineer
Dec 2017 to Till Date

Achievements:

- * Insta Team Award for best performing team in Account.
- * Scored 70% in AGILE internal Certification.

Projects Undertaken:

Project WorkAbility for Hardford

This is a development project in the Insurance domain for maintenance and enhancement of .NET framework based Disability management application. This is a long term project with our company for more than a decade. It follows Agile Scrum methodology and sticks to most of the agile principles like Scrum, Sprint planning, Sprint retrospective etc. For inculcating development best practices and tracking purposes, we use IBMs Rational Team Concert (RTC).

Worked on automation and backend part of Workability tools that reduced manual tasks by 40% using C# as the backend language.

Worked Exception Handling related to my User Story.

Used SOAP UI and Swagger UI for Unit Testing related to my User Story.

Successfully delivered user stories' planning and implementation that facilitated smooth project deliveries.

Attended client scrum calls and handled real time problems on a daily basis, honed communication skills.

Created stored procedures and functions that helped to reduce load on the backend server.

Developed Web Service using REST API concepts that helped to decouple systems.

Implemented Windows Service to schedule jobs.

Modified UI using HTML and CSS that improved customer experience.

Created procedure and packages in PL/SQL using TOAD application.

Tennis Tournament:

This application allows to search for tournaments, update the details of players, book a match and cancel a tournament. This is a Python based application created to schedule matches using an oracle database.

Worked on creating an efficient backend part of this application.

Learned basic CRUD operations to meet project goals.
