## Work Experience

### • Mindtree Pvt Ltd, as Senior Engineer -Software Development

Jun 2018 to Till Date

Project-5

TITLE : About Client Rebrand  
 CLIENT : Confidential  
 DURATION : Sept 2020 to Present  
 TEAM SIZE : 5  
 ROLE : React Developer  
 TECHNOLOGIES : React, JavaScript, SCSS, MS-Fluent UI, HTML  
 FRAMEWORK : MS-SharePoint

#### DESCRIPTION:

As the project names says it a website for about our client. We have developed 12 pages as per Client requirement. We have pages such as company history, leadership page etc.

Client have shared UI prototype and we have created pages accordingly. We have added accessibility feature and make it responsible for mobile, tablet and for desktop view (from 100% to 150% resolution). we also added cross browser support such as for IE-11, edge, safari, chrome and Firefox

#### RESPONSIBILITIES:

Created the header and footer extension for all the pages.  
 Created a custom carousel as demanded by client on top of React Slick carousel and added accessibility for it.  
 I have investigated and found that OOTB webpart are not align with our custom webpart for 100% resolution and for 150% resolution, so I have implemented a fix for that.  
 There was issue pointed in UAT testing is that images resolution is not preserved with responsive, so I have provided a fix for this.  
 I have verified my peers code along with my lead.  
 Created various other webparts like which are fully customizable via property pane or from SPFx list

Project-4

### Important

TITLE : News Center  
CLIENT : Confidential  
DURATION : May 2020 to Sept 2020  
TEAM SIZE : 6  
ROLE : React Developer  
TECHNOLOGIES : React, JavaScript, SCSS, MS-Fluent UI  
FRAMEWORK : MS-SharePoint

DESCRIPTION:

In News Center, we are displaying News we have 5 main section which contains news summary these sections are global new, trending news, news series, other news and last is multimedia which contains news video.

In this section pages we are displaying news article images with heading on click this will take you article pages where user can read the article and comments his view on those articles.

Main benefit of using SPFx is that website content is dynamic website admin can add new content/ new news article dynamically that is without any code change.

RESPONSIBILITIES:

Supported project in PGLS phase added accessibility for whole project along with one other team member as accessibility feature is asked in PGLS phase.  
Created a news carousel and Video news element on home page.  
Implemented filter news functionality.  
Created banner component for news article page.  
Take care of responsive ness by adding mixin for different screen size.

Project-3
