Summary

Java Developer with 5 years of experience in application development. Experienced in working within complex environments by contributing to project/company growth. Looking for a working environment where I can keep contributing and enhance my skills.

Work Experience

SmartBear Software as JAVA Developer

Mar 2017 to Jun 2020

Worked as part of the core team that is responsible for the development and maintenance of the Test Management Platform.
Experienced in implementing and delivering new features to production singlehandedly.
Worked on many value-added features like - Login security features, Dashboard, Report generation, Gadgets creation, Gadget Permissions based on roles, Folder Watcher, Zautomation, and custom fields.
Experienced in writing and executing unit and integration test-cases of the developed features.
Documentation of implemented functionalities using Apiary tool.

Accenture as Application Developer Analyst

Nov 2014 to Feb 2017

Breaking down requirement-specification into required features and translating logic into a programming language.
Involved in defect solving and testing.
Worked on Change Requests and User Stories.
