Summary

A software engineer and innovation enthusiast, working in Gitech division of Amdocs for Infrastructure Support and Integration. An adaptive quick-learner with strong analytical and problem-solving skills with a good command over communication

Work Experience

 **Amdocs** as Technology Integration Engineer
Dec 2017 to Till Date

Hands on experience in application environments based on technologies such as Weblogic, Oracle Service Bus, Tomcat Apache, Jboss, Hadoop, Microsoft BizTalk, Elastic Search. Working as the design lead of Geographic Disaster Recovery project for the client.

Created and configured end-to-end environments of OSB, Tomcat Apache, JBoss, Weblogic.

Clear understanding and hands on experience in Amdocs Billing Product i.e. BSS and OSS Suites.

Automated various BAU tasks which reduced significant amount of time such as one click page Login (for all environments), consolidated server monitoring Bundle, automated activity tracker.

Created multiple jobs for deployment of application in Jenkins and designed over 200 EyeShare flows to automate various daily tasks which reduced significant night call outs and team effort.

Good experience in handling production issues and high severity outages calls.

Daily activities like: Installation of third parties, Emergency change request deployments, Hotfix deployments etc.

Have hands on experience in DevOps concepts like Docker, Kubernetes, GitHub and Ansible and monitoring tools like Grafana and AppDynamics.

Carried out multiple Production releases for the accounts and appreciated by customer.
