

Pushkar M Kale 

Software Developer seeking roles in Software Development,Application Management,Application Development,Application Programming,Requirement Gathering,Requirement Analysis,enkins,Oracle,Cloudant,MongoDB,MySQL,Java

Current Designation: Software Developer

Total Experience: 17 Year(s) 0 Month(s)

Current Company: IBM India Pvt. Ltd.

Highest Degree: Masters [Systems]

Current Location: Pune

Pref. Location: Bengaluru / Bangalore,Chennai,Pune

Functional Area: IT Software - Application Programming / Maintenance

Role: Software Developer

Industry: IT-Software/Software Services

Marital Status: Married

Key Skills: **Software Developer,Software Development,Application Management,Application Development,Application Programming,Requirement Gathering,Requirement Analysis,enkins,Oracle,Cloudant,MongoDB,MySQL,Java**

Verified : Phone Number | Email - id

Last Active: 22-Jan-21

Last Modified: 22-Jan-21

Summary

Around 17 years of experience in leading offsite and onshore development teams, designing, develop-ment, implementation and maintenance of web applications.

He has hands-on experience in all phases of Software Development Life Cycle (SDLC) : requirements gathering and analysis, system requirements specifications, high level and detail level designing, devel-opment, test planning, execution and deployment. Has exposure to Quality processes, software imple-mentation and documentation.

During the span of his career he has worked on web applications under different domains involving web technologies, various frameworks, software development models, methodologies, tools and processes.

As part of live projects, various organization and account level innovation initiatives he has participated in, he has hands on development experience in Microservices Development, IBM Cloud, DevOps, Analyt-ics and Mobile technologies.

Work Experience

IBM India Pvt. Ltd. as Software Developer
Feb 2005 to Till Date

Project: Boxco

Duration: Aug 2018 - Till Date

Boxco is a shipping domain-based company that handles cargo operations for shipping operators on land and sea. This is a green-field project to develop domain-specific applications that would handle Boxco's core operations.

As IBM Cloud microservices developer Pushkar developed microservices for multiple modules like log-in/authentication, user management and other functional services.

He contributed extensively in creating the Cloud infrastructure for back-end services and in migrating from IBM Cloud Foundry to Clustered environment.

He helped setup the DNS, Istio service mesh and DevOps infrastructure for the project.

Environment : Node JS, Cloudant DB, AppID, Redis, Istio Service Mesh, Docker, Kubernetes, IBM Cloud
Toolchains/Pipelines and IBM Cloud Public.

Innovation Initiatives

Some of the assets/applications he was instrumental in designing and developing :

NodeJS Bundle for IBM Cloud : Automation asset built using NodeJS

Microservices Configurator : IBM IP-approved script-based automation asset

Usage Stats and Recommendation Advisor : IBM Cloud, Android, Node JS, Dash DB, R-Script

Location Based Offers : IBM Cloud, Android, Node JS, Cloudant DB, Dash DB

Education

UG: **B.Sc (Not Specified)** from **Jabalpur University** in **1998**

PG: **Masters (Systems)** from **Mumbai University** in **2004**

Other Qualifications/Certifications/Programs:

Diploma in Advanced Computing
