Experience in leading and managing teams. Handled multiple roles - Associate Engineering Manager, Technical Lead, Onsite Co-coordinator, Developer Analyst. Executed software projects for Healthcare and Retail industry

## Work Experience

**United Health Group (Optum)** as Associate Engineering Manager -IT  
May 2018 to Till Date

**Brief Overview:** OptumRx is one of the largest pharmacy benefit managers (PBM) in the US and provides pharmacy care services to 65 million people nationwide through a national network of more than 67,000 community pharmacies. As a leading pharmacy care services company, it serves commercial, Medicare, Medicaid and other government health plans, employers and unions. Its Rx-claim application is used for Adjudication of Pharmacy Claims and payments against Eligibility, Plan Benefits, Price and Prior- Authorization.

### Roles & responsibility

Deliver new and complex high quality solutions to clients in response to varying business requirements  
Size features in backlog to access which feature can be taken up in next sprint cycle. Assess if a feature would require multiple sprints and could be accommodated in a release cycle.  
Identify User stories for a feature and break a feature down into granular level.  
Work with Product Owner and business stakeholders to identify the scope and get clarity before actual sprint development commences.  
Preparation of Agile Annex document that lists the business scenarios for reference of the business stakeholders.  
Ensure that the acceptance Criteria for User stories are in line with the requirements.  
Preside over the sprint planning session to size the User stories and allocate tasks to User stories.  
Ensure the scrum team maintains sustainable sprint velocity and keeping a tab on TTB (Time to Build) & TTV (Time to Value).  
Present the solution approach to the SDR (Software development review) committee and get approvals.  
Involved in the actual development cycle (impact analysis / coding / reviews) and making sure coding standards are followed.  
Involved in automation testing using UFT framework with JBoss and Cucumber plugin that uses Gherkin language

### Important

- Using Free CV Search you have access to featured candidate profiles of Naukri. You can browse through the profiles and email the candidates of your choice directly using the email option provided. To prevent misuse of candidate information, contact details and attached resume of the candidates have been withheld.

(behavior driven approach). The actual code is written in Java whereas the Feature Files are written in Given -> When-> Then behavioral format using Gherkin language.  
Utilize in-depth knowledge of functional and Technical experience in AS/400, SYNON/2E, Cobol/400 and RPG/400.  
Involved in driving initiatives involving learning new technologies and tools like DevOps.  
Imparted functional training mainly on the Rxclaim Pricing Side.

Major Areas of Rxclaim application worked on:

Claim Adjudication - Medicare Part D Pricing and Accumulations.  
Core Plan Adjudication  
Prior Authorization  
Prescription Drug Event - PDE
