## Summary

To continuously improve and grow my skills along with the organization to develop meaningful and impactful applications.

## Work Experience

### **LARSEN AND TOUBRO TECHNOLOGY SERVICES** as Engineer

Jun 2018 to Till Date

Developing and maintaining a range of large scale, smart building: Android, iOS and UWP applications, which act as an interface between the tenants and the smart building offering features like: HVAC and lighting control, Occupancy awareness, Corporate-social media, Group Chat and much more.

Key Contributions:

- \* Single-handedly developed the Group Chat feature using Pubnub with Presence and Signaling capabilities which was appreciated by the vertical's Group Head.
- \* Awarded Star of The Month for my relentless support in fixing production issues within 24 hours.
- \* Took ownership of the incredibly unstable and humongous UWP development and made it production ready within a span of 5 months.
- \* Fixed a Single-Sign-On issue which was open for 1 year, within a span of 2 weeks, clearing the biggest hurdle for UWP production release.
- \* Quickly adapted to change and upskilled myself to master Android, iOS and UWP development when the mobile team size reduced to just 2.
