Last Active: Oct-Dec 2020

Last Modified: Oct-Dec 2020

## Summary

More than 5.10 Years of experience in Web Application Development & Designing.  
 Proficiency in Java, J2EE and the latest frameworks like JSF, JPA, EJB.  
 Extensive experience in developing various web based applications using Hibernate 3.0 and Spring frameworks.  
 Experience with Web services technologies like REST and some extent of SOAP, Ajax, JQuery, Java Script and CSS 3.  
 Hands on experience on GIT content repository, Sonar.  
 Strong interpersonal and communication skills with an ability to lead a team and keep them motivated.  
 Excellent object oriented designing skills.  
 Key Responsibilities include design and development.  
 Experience in writing SQL/PLSQL, Database performance optimization.  
 Experienced in Data Structure & Algorithms

## Work Experience

**DBS Bank** as Development Engineer  
 Nov 2018 to Till Date

Java fullstack application developer come offshore lead

**Virtusa Polaris** as Technical Consultant- Application Programming  
 May 2017 to May 2017

GBNP (Global Notional Pooling)

Company Name Virtusa Polaris

Tools and Tech. JSP, Servlet, Java Script, CSS, SQL, PLSQL, Sonar, Checkmarx, IBM UDeploy, Teamcity, eclipse, sql developer, Autosis job

Description GBNP is a Global Notional Pooling platform that provides a means to pool account balances from different branches without moving the funds physically. GBNP calculates the credit and debit interest within the pool and also reallocates interest amongst the pool participants

Role & Responsibility Understanding the end to end Business Requirement.

Involved in analyzing, developing, fixing & testing, participated in Change Requests requested by client in the application.

Involved in developing user requirement and design component.

Preparing Test cases as per the developed modules for testing team.  
 Fixing the issues highlighted by testing team.  
 Involved in optimizing code for better performance.  
 Involved in database related coding (Creating database link, procedure, function, index, partition etc.)

## **Virtusa Polaris** as Technical Consultant May 2017 to Nov 2018

### RL- (Reserve Link)

Company Name ? Virtusa Polaris

Tools & Tech. ? SQL, PLSQL, Sonar, IBM UDeploy, Teamcity, eclipse, Sql developer, JDBC job

Description ? Reclassification of the Reporting of some DDA Balances as MMDA Balances to utilize this liquid amount on market.

o For example, Reserve Link sends accounting entries information in an email to the configured email ids. This process has been automated such that the accounting entries information can be sent via a feed to Tampa GL

? Role & Responsibility ? Understanding the end to end Business Requirement.

? Involved in developing user requirement and design component.

? Involved in analyzing, developing, fixing & testing, participated in Change Requests requested by client in the application.

? Preparing Test cases as per the developed modules for testing team.

? Fixing the issues highlighted by testing team.

? Involved in optimizing code for better performance.

? Involved in database related coding (Creating database link, procedure, function, index, partition etc.)

### ? Supplier Portal

? Company Name ? Wipro Technologies.

? Tools and Tech. ? Eclipse, REST Web Services, Microsoft Azure Cloud, Tomcat, Spring, Hibernate, Bootstrap, JQuery, Java script, CSS, MySql

? Description ? SMPT expects a confirmation from the Supplier and Shipping Line, when lot has been loaded on board a vessel.

? Stuffing confirmation comes from the Supplier.

? Loading confirmation comes from the Shipping Line.

? Currently, the Stuffing and Loading files are emailed and the mailbox is monitored manually. The user then uploads the file by Endur.

? As a solution we have implemented this portal

? Automating the process of stuffing and loading files by eliminating the manual monitoring and uploading to Endur.

? Developing new Portal interface ? that would be accessible by Suppliers, Shipping Lines, SMPT team and Customers (Michelin plants).

? Role & Responsibility ? Involved in analyzing and requirement gathering, developing, fixing & testing, participated in Change Requests requested by client in the application.

? Involved in solving the defects and preparing unit test cases for the testing team.

? Fixing the issues highlighted by testing team.

### ? EJI - (Endur - JDE Interface)

? Company Name ? Wipro Technologies.

? Tools and Tech. ? IBM RAD, WAS, SQL-Developer, JSF, EJB, JPA, Jscript, Basic CSS

? Description ? The objective of the EJI (Endur ? JDE Interface) application is web and Batch application. EJI integrates the two main systems of Orchid Project, Endur and JDE. EJI batch application will automatically integrate Endur and JDE applications using a scheduler. EJI Web application will help the business users to manually initiate the integration process between Endur and JDE.

? Role & Responsibility ? Involved in analyzing, developing, fixing & testing, participated in Change Requests requested by client in the application.

? Involved in solving the defects and preparing unit test cases for the testing team.

? Fixing the issues highlighted by testing team.

### ? LPT- (Logistic Planning Tool)

? Company Name ? Wipro Technologies.

? Tools & Tech. ? IBM RAD, WAS, SQL-Developer, JSF, EJB, JPA, Jscript, JQuery, X-Net framework 3.0, Basic CSS

? Description ? In Singapore, a Michelin Group Owned company SMPT is running the natural rubber trading business worldwide such as sourcing, quality control, and buying, supplying, logistics and shipping of natural rubber. SMPT is replacing the existing IT solution with a package solution called Orchid. Logistic planning tool is an application

integral to the Orchid complete solution. The main functionality of the application is to generate the shipment plan, distribution plan.

? Role & Responsibility ? Understanding the end to end Business Requirement.

? Involved in analyzing, developing, fixing & testing, participated in Change Requests requested by client in the application.

? Preparing Test cases as per the developed modules for testing te
