Last Active: 19-Jan-21

Last Modified: 19-Jan-21

Summary

- * Around 3 years of professional IT experience in MS SQL Server 2008 R2/2012Database Development, and Reporting in development, test, production environments.
- * Excellent knowledge in creating Databases, Tables, Stored Procedures, Views,CTEs, Functions, Indexes using T-SQL.
- * Extensive experience in Performance Tuning and Query Optimization.
- * Expert in interfaces like Management Studio, Business Intelligence Development Studio, Query Analyzer and SQL Server Data Tools (SSDT).
- * Excellent report creation skills using SSRS 2008R2, SSRS 2012and Report Manager.
- * Designed report layouts and parameterized reports using SQL Server Reporting Services (SSRS) based on client requirement.
- * Experience in designing complex reports like reports using Cascading parameters, Drill-Through Reports, Parameterized Reports and Report Models and ad-hoc reports
- * Experience in designing complex reports including sub reports using SQL Server Reporting Services (SSRS).

Work Experience

Prolific Technologies as BI Developer

Nov 2017 to Till Date

Client: RBS Bank Jan 2019 - Present

Title: MSBI Developer

The project was mainly into data warehouse reporting using SSRS and ETL Architecture Design during the initial phase and process design for loading staging Data Base.

- * Involved in Designing, Developing and Testing of the ETL (Extract, Transformation and Load) Strategy to populate the data from various source systems using SSIS.
- * Designed ETL packages dealing with different data sources and loaded the data into target data sources by performing different kinds of transformations using SQL Server Integration Services (SSIS).
- * Responsible for coding SSIS processes to import data into the Data Warehouse from Excel spreadsheets, Flat Files and OLEDB Sources.

- * Involved in building and maintaining SSIS Packages to import and export the data from various data sources using SQL Server Data Tools (SSDT) based on the design data models.
- * Worked on various tasks and transformations like Execute SQL Task, Execute Package Task, conditional split, Merge and Look up while loading the data into Destination.
- * Created various Parameterized Reports using SQL server Reporting Services
- * Report parameters included single valued, multivalued parameters which also consisted of different parameter types like hidden etc.
- * Created various ad-hoc SQL queries for customer reports, executive management reports and types of report types like tables, matrix, sub reports etc.

Education

UG: **B.Tech/B.E. (Electronics/Telecommunication)** from **JNTU College of Engineering, Hyderabad** in **2017**

IT Skills

Skill Name	Version	Last Used	Experience
Microsoft Business Intelligence (MSBI)			
Windows O.S Versions			
SQL Server			
T-SQL
