## Work Experience

### • **Techwise Digital (ICU Medical LLP)** as Business Analyst -IT Mar 2019 to Till Date

I am writing and preparing the documentations for projects (use case, user stories, writing requirements). I am also tracking the projects and conducting the SCRUM meeting every day, also working on JIRA and Confluence to track down the project projection.

Responsible for gathering requirements from the Employee as well as from Vendors for the software development within the organization. Gathering requirements and writing functional as well as nonfunctional requirements for (Data Warehouse) Project. Act as a bridge between the Stakeholders and internal teams to implement the functionalities into the system.

Participate in the Marketing Strategy for monitoring tool (Safe Watch) and participate in the pre-sales activities, closely worked with System Engineer for the Project management activity in Jira and Confluence.

#### Project Worked

1. DATA WAREHOUSE
2. ENTERPRISE CONFIGURATOR
3. SAFE WATCH
4. RTLS
5. MOBILE DATA BROKER

Enterprise Configurator - I handled all the documentation on this project like (design input document, hazard analysis, user need document, user guide, user flow, UML diagrams in regulatory assessment, etc.).

Data Warehouse - particularly on this project I am conducting SCRUM meeting, created the Sprints in JIRA worked as a bridge in between vendor and the team.

Safe Watch - I have done the Secondary Research on this project and created reports, write the functional requirements, Competitive Analysis, etc.

RTLS - For me on this project I have done the Hazard Analysis, generate the report of user experience, popup the user stories

Mobile Data Broker - Created the UML diagrams, wrote the functional requirements, user stories as well as user experience.
