Summary

Oracle PL-SQL developer with around 5 year of total IT experience in the field of Software development. Expertise in Financial Industries-based application including KYC project. Knowledge on RDBMS like oracle, PL-SQL. Have Experience on Business Requirement Analysis, Coding, Development, Tuning, Production Support & maintainence activities. Experience in all phases of Software Development Life Cycle. 4 years of Experience in oracle, PL-SQL procedures, Functions, Packages, Triggers, Cursors, views, Reporting experience using sql- PL-SQL.

FUNCTIONAL EXPERTISE:

Technical Solutions

Productivity

Incident/Program Management

Training Plan Team Work

Documentation Management Root Cause Analysis

Quality Assurance.

Work Experience

Wipro Infotech as Plsql Developer

Sep 2015 to Till Date

Senior PL-SQL Developer with 5 yr experience

Wipro Infotech as PLSQL Developer

Sep 2015 to Sep 2015

Project: #1

Title: AML-CDD-KYC (BANKING & FINANCE)

Role: Oracle PL/SQL Developer

Client: CITIBANK

Key Responsibilities:

Involving in database development by creating oracle PL-SQL functions, Procedures, Packages, records and collection, cursors, triggers, views etc.

Knowledge on oracle 11g Architecture.

Generating SQL & PL-SQL Queries to create and drop Database objects including tables, views, primary keys, Sequences, Views, Constraints, indexes.

Maintaining customer information and ensuring efficient data retrieval as required for core decision making.

Writing Stored Procedures, triggers and monitoring to ensure efficient Data Retrieval.

Understanding of client functional requirements and participate in writing functional specs.

Involving in performance tuning for SQL Queries using Explain plan, Collection methods, Bulk Collect, DBMS Profiler, table partitions to optimize performance.

Coordinating with the front-end design Team to provide them necessary stored procedure and packages and necessary insight into the data.

Project: #2

Title: AML RECONCILIATION (BANKING & FINANCE)

Role: Oracle PL/SQL Developer

Client: CITIBANK

Key Responsibilities:

Generated Server-side PL/SQL scripts for data manipulation and validation and materialized views.

Worked with Talend-DI ETL(Basic-Level), for creating and implementing jobs for reconciliation process.

Working on SQL Loader to load Data from flat files obtained from various facilities every day

Worked with Dynamic SQL using execute immediate, Batch optimization.

Creating and modifying several Unix scripts according to the changing needs of the project and client requirements.

Implementing PL-SQL objects in reporting for the client side using SAP B.O, Inquiry Framework (In-house tool used by CITI).

Worked with GTT tables, indexes etc.

Project: #1

Title: FINANCE FULL SUITE (BANKING & FINANCE)

Role: Oracle PL/SQL Developer

Client: CITIBANK

Key Responsibilities:

Worked in production support Environment for PL-SQL and UNIX.

Worked with Query optimizations for long running jobs in production using hints, stats collection, oracle system events etc.

Created Triggers on table and Database.

Have Knowledge on job monitoring tools like operation console, Autosys jobs etc.

Worked in CR creation, INC in ServiceNow.

As part of Support Environment have worked on different database like Netezza, Teradata.

Writing Unix commands to process the files on daily basis like renaming the file, unzipping the file, Directory creation, copying files from one server to another, grep commands.

Worked in raising defects in QC for the respective Environment and regions for the migration.
