Summary

A growth-oriented professional with an experience of 2.7 years as Business Analysis, Requirement Analysis, Risk Assessment, Technical Analysis, IT Project Management, SDLC, JMeter, SOAP UI, Hp Alm, Servicenow, Jenkins, Agile

Work Experience

Tata Consultancy Services (Sanofi) as Consultant - IT Apr 2020 to Till Date

Performed requirement gathering, planned sprints and managed SLC deliverables as a part of project management

- * Responsible for Refresher Trainings at the beginning of every Project/Application
- * Worked closely with Business and Technical teams to provide expertise and guidance ensuring that the Computerized System is implemented, maintained and supported in compliance with applicable regulations that apply to ITS processes
- * Provided computerized system validation expertise along project and system lifecycle
- * Coordinated the risk assessment and ensured execution of validation activities based on assessed risk

Tata Consultancy Services (Citibank) as System Engineer Mar 2017 to Apr 2019

Worked closely with the Business, Development team, Quality Assurance team and counterparts in other regions for capturing and delivering requirements

- * Created detailed Functional Requirement Documents and User Stories based upon received requirements.
- * Led an initiative to identify opportunities to increase project delivery efficiency. Recognized duplication of effort as a major deterrent and, in response, created a central repository of data, enabling data reuse, leading to increased efficiency of 12 team members, resulting 20% reduction of project hours
- * Conducted daily stand up meetings to check progress status, identify blockers and revise timelines accordingly where required, and convey the same to stakeholders
- * Created a monthly status report with the details of all the projects that were a part of the cycle for the client majorly benefiting the sprint retrospective meetings
- * Received On-Spot award for delivering excellence in the project
