

**Kishori H. Thombare**

Software Developer seeking roles in Software Development, Application Programming, Application Maintenance and solution, Project Management, Requirement Analysis in C#, ASP.NET MVC, Angular JS, Node JS, JavaScript, Web API, HTML, CSS, SQL, MySQL, MongoDB.

Current Designation: Software Developer -Dot Net

Total Experience: 2 Year(s) 4 Month(s)

Current Company: NEC India Technology

Notice Period: 2 Months

Current Location: Bengaluru / Bangalore

Highest Degree: PG Diploma [Computers]

Pref. Location: Mumbai, Pune, Bengaluru / Bangalore

Functional Area: IT Software - Application Programming / Maintenance

Role: Software Developer

Industry: IT-Software/Software Services

Marital Status: Single/unmarried

Key Skills: Software Developer, Software Development, Application Programming, Application Maintenance, Project Management, Requirement Analysis, Solution Architecture, C#, ASP.NET MVC, Angular JS, Node JS, JavaScript, Angular, Web API, HTML, CSS, MySQL, MongoDB

Verified : Phone Number | Email - id

Last Active: 20-Jan-21

Last Modified: 20-Jan-21

## Summary

Expertise in managing overall software development life-cycle involving requirement analysis, system study, designing, architecture, testing, programming, coding, de-bugging, defect management & documentation  
Excellent track record of designing customized products for high profile clients using Node JS, Angular JS, Cordova, ASP .NET; capability to interface with clients and suggesting them viable software solutions  
Qualified in evaluating end-user requirements and troubleshooting for complex problems, analyses bug patterns and provides insights and practices to the development team for prevention of high priority/severity bugs  
Track record of providing continuous development support to the client with regard to the application, ensuring all solutions are scalable, extensible & available from architecture stand point and meet latest standards.  
Effective in developing solutions for given technical specifications; installing application software and deploying customizations.

## Work Experience

**NEC India Technology** as Software Developer -Dot Net  
Sep 2018 to Till Date

### Key Result Areas:

Understanding client's needs & managing customization of product accordingly and consulting with Technical Team to provide solutions as per the delivery schedules

Developing technology-based solutions for enhancing functional efficiency and achieving business excellence and managing risks and planning for contingencies to ensure minimal effect on deliverables

### Ensuring:

Best practices for coding, architecture, and security are employed, and maintaining responsibility for the quality development of all applications

Business requirements and functional specifications for the module are tested and fulfilled before the code is delivered for integration

Resolving the problem/incident within the SLA/benchmark time in a prompt and coordinated manner

Managing various technical aspects like project documentation, system design & integration, coding of modules, monitoring critical paths & taking appropriate actions

Maintaining healthy relations with internal & external stakeholders to provide support for various issues; keeping a close track of developments in the field of IT applications and updating top management about the same

Analyzing business requirements and converting functional requirements into technically feasible solutions

Performing effort estimation for new developments/enhancements; providing post-implementation, enhancement and

maintenance support to client for application.  
Driving efforts towards maintaining software development practices  
Spearheading project progress & outstanding issues and ensuring the quality & timeliness of the deliverables; preparing monthly dashboard, project health check metrics and weekly & fortnightly status reports

Projects undertaken:

Project Title/ Period    OXXO/ Apr'10 to Oct'20  
Project Description    OXXO is retail chain of Mexico. Worked on designing the migration of their premise system to cloud. Performed prototyping of use cases such as inventory and receiving functionality.  
Technologies    Node JS, Web API, Express Framework, TypeORM Framework, PostgreSQL DB, AWS.  
Responsibilities:  
Analysed requirements and developed application using Node JS  
Developed server-side code using Node JS

Project Title/ Period    Smart Retail Services / Since Mar'19  
Project Description    Smart Retail Services is IOT based web application which provides real-time solutions to retail stores. It provides alerts which are used by store operators to perform various task like (inventory updates, equipment updates). It also consists of a mobile application which is used by user to get alerts and address them.  
Technologies    HTML5 local storage, CSS3, JavaScript, Angular Js, Web API, Entity Framework 6 with DB First Approach, MySQL 5.6..  
Responsibilities:  
Analysed requirements and developed Hybrid App using Angular JS, Cordova, and Ionic  
Developed server-side code using C# and ASP.NET MVC, Web API and Entity framework for data persistence and retrieval

Project Title/ Period    Timesheet Application / Aep'18 to Mar'19  
Project Description    Timesheet Application is software system to keep track of employees work efforts daily/weekly/monthly. It is being used by employees to log their tasks and activities based on timelines. It is also being used by managers to check the logged activities of their team members. Managers can pull out reports like Filled/Not filled reports  
Technologies    ASP .NET, Entity Framework, HTML, CSS, SQL DB.  
Responsibilities:  
Understood requirements and developed web application using ASP .NET  
Managed development and bug fixes of the application

Education

UG: **B.Tech/B.E. (Electronics/Telecommunication)** from **Sinhgad Institute of Technology, Lonavala, Pune University** in **2014**

PG: **PG Diploma (Computers)** from **Sunbeam Institute of Information Technology, Pune** in **2018**

IT Skills

Skill Name	Version	Last Used	Experience
Visual Studio, VS Code			
PostgreSQL, Mongo db			
javascript, angular			
Web API, Entity Framework			
HTML, CSS			
MySQL, SQL			
C#, ASP.NET MVC			
Angular JS, Angular 2+, Node JS			

Languages Known

Language	Proficiency	Read	Write	Speak
English	Proficient			
Hindi	Proficient			
Marathi	Proficient			

## Projects

Project Title: OXXO

Client: Mexico

Nature of Employment: Full Time

Duration: Apr 2020 - Oct 2020

Role: Programmer

Onsite / Offsite: Offsite

Skill Used: Node JS, Web API, Express Framework, TypeORM Framework, PostgreSQL DB, AWS.

Role Description: Understanding of requirements and development of application using Node JS.

Development of server-side code using Node JS.

Ensure the best possible performance, quality, and responsiveness of applications

Project Details: OXXO is retail chain of Mexico. We have worked on Designing the migration of their on premise system to cloud. We have done prototyping of use cases such as inventory and receiving functionality

Project Title: Smart Retail Services

Client: Indonesia

Nature of Employment: Full Time

Duration: Mar 2019 - Till Date

Role: Programmer

Onsite / Offsite: Offsite

Skill Used: C#, ASP.NET MVC, JavaScript, Angular Js, HTML, CSS3, Web API, Entity Framework 6 with DB First Approach, MySQL 5.6.

Role Description: Understanding of requirements and development of Hybrid App using Angular JS, Cordova, Ionic.

Development of server-side code using C# and ASP.NET MVC, Web API and Entity framework for data persistence and retrieval.

Project Details: Smart Retail Services is IOT based web application which provides real-time solutions to retail stores. It provides alerts which are used by store operators to perform various task like (inventory updates, equipment updates etc..). It also consists of a mobile application which is used by user to get alerts and address them. The application can run on different platforms including iOS, Android.

Project Title: Timesheet Application

Client: NEC Technologies India Pvt Ltd

Nature of Employment: Full Time

Duration: Sep 2018 - Mar 2019

Role: Programmer

Onsite / Offsite: Offsite

Skill Used: ASP .NET, Entity Framework, HTML, CSS, SQL DB.

Role Description: Understanding of requirements and development of web application using ASP .NET.

Overall responsibility of application which includes development and bug fixes.

Ensure the best possible performance, quality, and responsiveness of applications

Project Details: Timesheet Application is software system to keep track of employees work efforts daily/weekly/monthly. It is being used by employees to log their tasks and activities based on timelines. It is also being used by managers to check the logged activities of their team members. Managers can pull out reports like Filled/Not filled reports etc.

## Affirmative Action

Physically Challenged: No

## Work Authorization

Job Type: Permanent

Employment Status: Full time
