Work Experience

Multiverse Solutions as Software Developer

Mar 2019 to Till Date

Project Title: MLM Software

Role: Programmer

Description: Multi-level marketing (MLM), also called pyramid selling, network marketing, and referral marketing, is a marketing strategy for the sale of products or services where the revenue of the MLM company is derived from a non-salaried workforce selling the company's products/services.

Project Title: E Commerce Software && API

Role: Project Lead

Project URL: <https://jewria.com/><https://eblaa.com/>

& Merchant Panel & Reseller Panel and Admin Panel.

Description: Ecommerce software is the engine behind the scenes of an online store, making it possible to easily manage inventory, add or remove products, calculate taxes, and everything else required to manage a website and fulfill orders.

Project Title: QMS Software

Role: Programmer

Description: A queue management system informs customers of their status in a queue, thus making wait times feel shorter. By allowing customers to use their time in a more efficient manner, a QMS builds up customer experience. A queue management system gathers real-time data about the service, wait time, and customers.

Project Title: IBR Software

Role: Programmer

Description: A calculator is a device that performs arithmetic operations on numbers. The simplest calculators can multiple currency.

Project Title: BIDSoftware
Role: Team Member

Description: A bidding system in contract bridge is the set of agreements and understandings assigned to calls and sequences of calls used by a partnership and includes a full description of the meaning of each treatment and convention.

Project Title: HRMS Software
Role: Programmer

Description:Human resources management system (HRMS) or human resources information system (HRIS) or human capital management (HCM) is a form of human resources (HR) software that combines a number of systems and processes to ensure the easy management of human resources.

Project Title: Contract Software
Role: Programmer

Description: Contracts can be described as the legal concept that two persons can agree to redefine their legal relationship, that is, their legal obligations to one another.
