Work Experience

Tech Mahindra, as RPA Process Consultant-Scrum Master
May 2016 to Till Date

Project 1:

My Current Work is for Chevron in the Oil & Gas industry, I have been performing the role of a Scrum Master for Sprint Planning and Monitoring and have been using Agile MS Azure Dashboard for this purposes, so far two RPA projects have gone live and I have been the RPA Process consultant for both the processes, these are financial processes using SAP Ariba Tool. Currently am working on RPA solution for a POC on a web-based financial procurement application called GARS Workday activities.

Appreciated by the client for proactive efforts for precise Sprint planning and Manual Work reduction over Email. Apart from this I have also proactively created document for BCP scenarios for RPA Solution Failure and working on creation of documentation for other RPA playbook activities following RPA rules of Engagement prescribed by Chevron and UiPath.

Project 2:

Worked for leading German Pharmaceutical Client for implementation of their RPA roadmap use cases for requirement gathering, PDD preparations providing insights for SDD and determining the scope of the business processes as a RPA Business Consultant and as a Liaison between Tech team and process owners.

Project 3 :

Hands on Experience in Due-diligence for an American client for their financial Processes, responsible for delivering Complete Process Discovery based on Automation Potential parameters & Detailed documentation of the same. Had been responsible for Liaison with Client's RPA sponsor, IT team, Functional Leadership & Business stakeholders.

Project 4::

Review of existing Processes considered for Automation by the client and determining the scope of RPA. Delivery of Detailed Process Definition Doc's. Liaison between RPA offshore & onsite coordinators, Tech team and Functional Process Owners. In charge of Change Management.

Project 5::

Had been a part of Coo's office as Strategic Initiatives Taskforce, responsible for Strategic Account Management by working alongside SBU/Cluster leadership for ensuring Pipeline for Proactive Automation (AI/RPA opportunities) &
