Work Experience

Mindbody India as Software Engineer

Oct 2020 to Till Date

.Net Core Developer

Cognizant as Programmer Analyst

Dec 2017 to Oct 2020

immediate joiner

Project Name: MarketPlace Web & Apps(E-Commerce)

12/2017 to present | Pune, India

Description: In this project I created the multiple Web API's using .Net Core. The Web API's were mainly responsible for using the fetching and updating data in the data source through another 3rd party exposed API and classic database. I followed micro service based architecture. We used Docker, AKS, Azure DevOps for build and deployment pipeline.

Role: Software Engineer

Technologies Used: C#, .Net Core, SQL Server 2012, LINQ, GIT, Azure Functions, Azure LogicApps, Azure DevOps, Azure App Insights, Keyvault, Azure Alerts, Azure Service Bus, Docker, AKS, Specflow.

Involved in requirement analysis, impact analysis, and design, identifying the changes and making the changes.

Created functional specification & technical specification documents.

Created provisioning pipeline for azure resources using ARM template and Azure DevOps. Involved in functional and Integration testing of application using specflow.

Education

UG: Bachelor of Engineering (Electronics and Telecommunocations) from University Of Pune, Pune in 2020

PG: NA (na) in 0
