Summary

About 2.10 years of experience in Application Development, Integration and maintenance for web and standalone applications.

Good knowledge in implementing open source frameworks Spring, Spring Boot, Micro Services to handle web application.

Worked extensively on RESTful API for data exchange.

Worked extensively on Apache Kafka for distributed messaging systems.

Good knowledge in J2EE Design patterns and Java 8 features.

Good Knowledge in Spring Cloud.

? Worked extensively on Amazon Web Service for Storing, fetching, and transferring data across S3 buckets.

Basic knowledge in web development using HTML, XHTML, CSS, Java Script and JSP Technologies.

Worked extensively on build and deployment tools like Version Control using GIT.

Good knowledge and experience in Agile & Scrum methodologies.

Excellent client interaction and presentation skills and proven experience working independently and in a team.

Work Experience

Accenture Solutions Pvt LTD as Application Development Analyst

Dec 2017 to Till Date

Project: PV First

Account: Accenture Life Science Cloud

Role: Java/J2EE Developer

Organization: Accenture Solutions Pvt LTD Dec '17 ? Till date

Description: A Pharma Product developed using technologies like Java, ReactJS, Artificial Intelligence to ease the case processing for the Medical Case processors. The document would be passed through the application pipeline to extract medical data, convert the data to XML and submit to the safety System.

Responsibilities:

? Enhancement of microservices and creation of new microservices in Java using Spring Boot application.

? Used Apache Kafka as messaging service and Rest Template to connect to other microservices

? Developed RESTful APIs for interaction between front-end and back-end.

? Utilized IBM Watson APIs for language detection

? Used Amazon S3 for storage of documents at every level in the application pipeline

? Worked on migration from Amazon S3 to Google cloud Platform.

? Used MongoDB as the database to store and retrieve data
? Implemented SSH File Transfer Protocol (SFTP) programmatically, to exchange files between the systems.
? Worked on Auditing the user action for compliance purpose
? Used Spring Scheduler to read files from folders to parse the data and store in DB
? Worked on reading from and writing to excel using Apache POI library
? Automated test cases using Mockito and Power Mockito with coverage of more than 90%
? Worked on integration with SonarQube for code coverage, adherence to coding standards various Java components
? Used Maven for build & Jenkins as Continuous Integration tool for deployment
Used GIT for the version control.

Education

UG: **B.Sc (Computers)** from **Bangalore University** in **2014**

PG: **MCA (Computers)** from **Bangalore Institute Of Technology (BIT)** in **2017**
