## Work Experience

### • Mphasis Ltd as Scrum Master -Java Mar 2020 to Till Date

Client: Royal Bank of Scotland  
 Period: Mar 2020 to Till Date  
 Role: Scrum Master  
 Location: Chennai  
 Title: Lending Platform

Description: The Lending program is an initiative consisting of multi-release projects covering the Lending business function in RBS. It's aim is to provide an end-to-end process flow that creates new and handles existing lending application tasks, captures and adds lending decision-making functions. The system generates and stores documentation in the Enterprise Content Management (ECM) system.

#### Roles & Responsibilities:

Ensure the scrum team lives by the values and practices of Scrum  
 Coordinate with product owner in grooming the product backlog and its prioritization  
 Ensure the product backlog is completed and prioritized by the product owner before the sprint planning begins  
 Encourage the team to discuss and negotiate each item in the sprint goal  
 Run the Daily Stand-up meeting to discuss team progress, announce daily commitments and highlight impediments  
 Facilitate team members to get together after the Daily Stand-up, to discuss any technical/non-technical issues in detail  
 Facilitate Sprint Review meeting and demo the work completed in the sprint and receive feedback from the business team  
 Facilitate Sprint Retrospective for the team to self-introspect and plan for improvements in the next sprint  
 Play the role of a coach for the scrum team, helping them to become a high performing, productive team delivering quality product  
 Perform root cause analysis for undelivered stories in the previous sprint and for other issues

### Important

To prevent misuse of candidate information, contact details and attached resume of the candidates have been withheld.

Discuss with the development team to identify if any motivation or commitment issues existed within the team and find resolutions for it  
Driving the continuous improvement culture within the team  
Risk identification and mitigation  
Protect the scrum team from outside influences or distractions  
Regular Jira review - Resolution of mapping issues between initiatives, epics, stories and tasks  
Monitoring defect lifecycle and tracking it to closure  
Take corrective measure based on the outcomes of 'Retrospective' session

■ **Tech Mahindra Ltd.** as Scrum Master  
Nov 2002 to Mar 2020

Client: Nissan  
Period: Nov2019 to Mar 2020  
Role: Scrum Master  
Location: Trivandrum (Nissan client location)  
Title: Spectra  
Description: Spectra is a "Specification Tracking System" which would analyze and maintain the periods and deployment of various vehicle feature specifications. The source data goes through 'Data Ingestion', 'Data Engineering' and 'Data Visualization' layers and generates outputs to make critical business strategy and decisions.  
Roles & Responsibilities:  
Coordinate with Product Owner in grooming the project backlog and its prioritization  
Facilitate for scrum ceremonies of Sprint planning, Daily stand-up, Sprint review and Retrospective meeting  
Identify motivational issues in development team members and find the root cause of it and address them  
Coordinate with the Product Owner to perform backlog refinement, Burn-down chart tracking, issue resolution activities along with team  
Coordinate to maintain Jira board with real-time status to generate reports on the health of the Project / Sprint to share it with all stakeholders  
Coordinate with external stakeholders like Tech support, dependent project teams and managers of shared resources to ensure that the team is not distracted and stay focused  
Coordinated for external validation of estimation provided by the team members as the team members had specific skill sets (Data - Ingestion, Engineering and Visualization)  
Coach the business team and new team members on the Agile / Scrum methodologies for a seamless delivery experience for the entire team  
Facilitating self-organized leadership culture in the scrum team and ensuring all members are aligned to the common goals of the team for a quality delivery of the project  
Identified root cause and resolution plan if the 'Burn down' chart shows lag in planned deliveries  
Coaching the product owner on creation and maintenance of the product & sprint backlog  
Liaised between developers & product owner and facilitate conflict resolution if any  
Keep an eye on the risk and impediments to proactively take risk mitigation action within time  
Coordination for prioritization and resolution of defects

Client: Honeywell  
Period: Nov2018 to Oct 2019  
Role: Scrum Master  
Location: Bangalore (Honeywell client location)  
Title: WESUI Dashboard  
Description: WES is a Warehouse Execution System developed through microservices architecture in which each of the sub system is an individually replaceable component. The WES-UI is a dashboard which pertains to the development of various functional UI screens for the system using ReactJS and GraphQL.

Roles & Responsibilities:  
Played the role of Scrum Master for Product teams with a focus on helping the team to help themselves and deliver quality product  
Coach / Train the team on scrum principles and facilitate resolution of day to day operational issues  
Applied creativity in ensuring that tasks were completed by the team without being pushed, forced and thrust upon, more of a pull culture was encouraged  
Facilitating self-organized leadership culture in the scrum team and ensuring all members are aligned to the common goals of the team for a satisfactory delivery of the project  
Leveraged the technical knowledge on microservices architecture, CI/CD, API, Java, Cucumber, Jenkins, Bitbucket, Git, Postman, Swagger, Maven, Eureka to effectively coordinate among the scrum team members  
Ensured protection to team from external impediments, distractions and conflicts so that focus is only on delivery of value in the sprint  
Maintained:  
Team velocity & sprint progression and communicated it to all stakeholders  
Product and sprint 'Burn down' chart with planned and actual trajectory  
Identified root cause and resolution plan if the 'Burn down' chart shows lag in planned deliveries  
Coaching the product owner on creation and maintenance of the product & sprint backlog.
