Summary

I have 13+ years of work experience in Development and Project Management in Microsoft Technologies. This includes interacting actively with the client from offshore and Onshore and understanding his requirements and getting those requirements accomplished by coordinating with the team.

Work Experience

Tata Consultancy Services (TCS) as Technical Lead Jun 2007 to Till Date

My current designation is Asst. Consultant (AST) and I had following responsibilities

- Expert in ASP.NET MVC 5.0, ASP.NET core, WEB API, C#, VB.NET, ASP.NET 3.5, ASP.net 4.0, ASP.NET 4.5, JQuery, Angular JS, TDD, Bootstrap, Silverlight, WCF, Oracle 10g, Oracle 12c, PL/SQL, NUnit, ServiceNow.
- Good understanding of ASP.NET Core.
- Good understanding of Database objects, writing queries, stored procedures and functions. Worked on database performance optimization, Import export of data, Qlikview, SSIS and SSRS.
- Expertise in analysing, designing, developing, installing, configuring and deploying MS SQL Server suite of products with Business Intelligence in SQL Server Reporting Services 2005/2008/2010/2012 and SQL Server Integration Services.
- Experience in using SSIS tools like Import and Export Wizard, Package Installation, and SSIS Package Designer.
- Project Management, Execution and development in Waterfall and Agile model.
- Estimation and Solution for Projects.
- Analyzing the requirement and understanding the functional specifications.
- Writing technical design document.
- Conducting code review of the modules.
- Has excellent analytical, interpersonal and communication skills.
- Ability to listen effectively and show patience while working with customers.
- Ability to multitask effectively and work well under pressure.
- Ability to prepare and provide reports on the status of customer products, issues and opportunities.
- Strong flexibility, integrity and creative problem-solving skills.
- Has experience to manage/ coordinate the team.
- 2 years of experience in Qlikview
- 6 years of work experience at client location in United Kingdom.
- 6 months of experience in configuration management and version control with the tasks from setup and track the configuration to version control, branching, merging of branch, resolving conflicts and monitoring throughout the projects. Exposure to VSS and MS-Team Foundation Server.
- 1 year experience in production support and 3 years' experience in L3 support and enhancements.
- Good Experience in SQL Server database restoration, taking database backup and granting and revoking of the access right to different team.
