Summary

Highly skilled professional with nearly 3 years' experience in end-to-end process of Business Analysis entailing As-Is / To-Be Analysis, mapping & finalising requirements, documenting functional specifications, determining business scenario and mapping them into solutions. Successfully analysed the business domain, documents its processes and systems, outlines business requirements, and matches a software business model with the software being built. Experience in software development technologies, specializing in system architecture, design, development, consulting & performance optimization. Proven track record of bridging the gap between stakeholders and the development team, interpreting business requirements into understandable development tasks to match a final software product with the expected business value. A quick learner with the expertise to work under pressure and meet deadlines

Work Experience

EbixCash Financial Technologies as Business Analyst- Banking & Financial Services
May 2018 to Till Date

Key Result Areas:

- Coordinating with the client and cross-functional operations teams to identify and manage improvement activities
- Mapping requirements of clients as well as different Service Providers, Senior Management, Vendors / Consultants & other Stakeholders for ensuring effective translation of business needs into technology requirements in adherence with company's objectives
- Supporting activities including running daily stand ups, sprint planning, grooming, pokering and retrospective and reporting iteration progress
- Creating a software design process to translate business requirements into technical design documents resulting in improved quality control and output that was 'right the first time'
- Identifying, conceptualizing and documenting appropriate technical solution approaches for various business scenarios and challenges
- Working on portfolio analytics, attribution and VaR calculation
- Querying database using SQL and analyzing existing SQL code for issues reported in production
- Optimizing SDLC to ensure project delivery in a pre-defined time period
- Interacting (onsite & offshore) with the client for requirement gathering; evaluating technical and commercial feasibility of solutions

Project Executed:

May'18 to Feb'19 with ICICI Bank - Wealth Management in ICICI Bank (Mumbai : Offsite)

ICICI Bank provided investment options (predominantly Mutual Funds) to customers as to cross sell the funds from ICICI AMC with lower cost than other Distributors

- Customers can directly invest from their Bank account and track their investments
- Performed detailed analysis of the holdings & helped the customer to comprehend
- Implemented MF module; integrated with CBS through which customer can directly place the order with Internet Banking
