Work Experience

Monocept Consulting as Software Engineer

Mar 2018 to Till Date

- Role :1) Currently I am working from Client Side for about 2 years 5 months. Client Name is Religare health insurance Gurgaon. According to my 4 months Performance our company gave me offer for working on client side.
- 2) I had integrated multiple third party API's like PAN , Aadhar and ICICI Bank Service Integration using Soap/Rest in java.
- 3) I had also Work on various Bulk Uploads. For Example- Suppose we had to punch more than 1000 policies in one go , Then first of all We had to create UI in AngularJS or angular 6 which will take excel sheet as input and then we convert data into json and pass it to java backend services to Validate records one by one in List . Success record we will upload further and Failure records we will show error messages.
- 4) I had also work on Client's Requirements in which we had to take Business Respective document From Client and then we had to work according to software Models.
- 5) Now at client side from 6 months I am working for Production issues which helps me to Increase analytical and debugging skills and able to work all type of issues whether reproducible or not.
