Summary

Project Manager/Portfolio Manager / Scrum Master, recognized for delivery excellence and exceptional work with international organizations within the Banking (Lloyds Bank UK, Capital One UK) and Finance industry. Known problem solver with a reputation for developing pioneering solutions to resolve global, regional and local technical challenges. With international exposure having worked in various countries including UK (9 years), Spain, Switzerland and India. Skilled in operating in a global environment involving multiple project teams, vendors and stakeholders distributed across multiple regulations, laws, geographies and cultures

Work Experience

Project Manager Lloyds Bank as Scrum Master/Project Manager /Platform Lead Aug 2010 to Sep 2020

The Lloyds Bank is working to establish a new transaction banking capability to offer current and new payments products to (initially) new corporate customers. Provision of this new capability requires the Bank to implement a new international payments engine. Once established, this new capability will enable the Bank to migrate from Common System (i.e existing international payments engine).

The Cash Management and Payments (CM&P) Programme is the primary delivery vehicle for implementing this new capability. The Bank has requested the Supplier to deliver the Payment Systems' International & CHAPS scope of this programme, working alongside their selected product vendor (Finastra), Jan 2019 to till Date
