## Summary

Competent techno-managerial, DB2 Database and Informix Database Administration, Project Management Professional (PMP®) and SAFE Agile Certified professional, offering nearly 15 years of rich experience with impressive success in entire Project Life Cycle Management and leading end-to-end Administration as DB2 UDB DBA

Possess extensive working knowledge on versions like v7, v8, v9 & v10 in space of Integration, Technology/ Data Migrations

International exposure: Worked across USA, UK and Australia

Forward Focused Project Manager with expertise in directing end-to-end project management from conceptualization & visualization to technology mapping, budgeting, resource, task scheduling, execution till closure on Teradata and Cloud Migration

Excellent knowledge and hands-on experience of working as INFORMIX DBA and DB2

Proven success in managing team of Hadoop Admins, Teradata DBAs and GCP Admins and core Informix DBA

## Work Experience

### Sears Holdings as Project Manager

Feb 2012 to Aug 2020

Role:

Directing teams of various DBAs like Informix, Teradata, Hadoop and GCP Admin along with DBA team of my primary skills of DB2

Monitoring progress, performance and provide status to the required stakeholders

Coordinating with stakeholders to ensure the support meets business needs

Conducting assessments to define and analyze possible risks, issues, developing/ monitoring mitigation plans

Heading various team of DBAs like DB2, NPOS, Informix, Teradata, Teradata Vantage, Hadoop admins and GCP admins

Providing technical consulting at onshore while setting up new Infrastructure, data inception design and processes

Developing & managing onshore and offshore teams including rotations

Supervising the appraisals process linked to reward management and Trainings

Guiding team members on alternatives and addressing root cause of issues while focusing on quality

Resolving technical issues of DB2 and Informix DBA

Identify and manage Key stakeholders, Managing scope of Project, Cost management of project with same team count

Identifying and rewarding Performers from Team, Conflict resolutions, Clubbing SHI/TCS teams, Planning Daily/Weekly meetings, planning proper transition to TCS team, promote Learning in Team and Effective People Management

Applied Resource optimizations by implementing Cross Skills techniques i.e. utilizing DB2 DBAs for Informix DBA

and vice versa, and Teradata DBA for Hadoop Admin and vice versa due to strict Budget constraints

Creating Objects like Tables, Views, Indexes and procedures based on APP team demand

Project: Various Support Projects like NPOS, IMPACT, RES, Home-Services
