Summary

Goal-oriented Web Developer having 4.5 years of experience in Frontend Development with strong commitment to collaboration and solutions-oriented problem-solving. Committed to high standards of web design, user experience, usability and speed for end-users.

Work Experience

Tech Mahindra Limited as Software Engineer
Jul 2016 to Till Date

Tech Mahindra Limited as Software Engineer
Jul 2016 to Jul 2016

Good hands on experience in Web Development, while also ensuring that the code is optimized for maximum speed and scalability along with implementation of a robust set of APIs to power the web application.

Build various interactive UI for the application using the latest UI technologies single handedly.

Have a strong knowledge of Angular Framework and its working with REST API's.

Modified existing projects to correct coding errors, upgrade interfaces and improved overall performance using web technologies with minimum supervision and also worked with a team.

Gained exposure in end-to-end development of software products from requirement analysis to system study, designing, implementation, debugging and unit testing.

Completed full redesigns of existing websites to improve navigation, enhance visuals and strengthen search engine rankings.

Have worked on at least 6 different dashboards with E2E development.
