## Summary

Solution Designer and Technology Lead having 11+ years of experience in Analysis, Design and Implementation of Fault Tolerant, Scalable and High Availability solutions. In-depth knowledge of the Telecom domain with proven ability to design and develop customized solutions and proof of concepts in the VMware SMART Assurance Suite of products. Demonstrated excellent problem-solving skills with a purpose driven approach. Looking forward to work as an Architect offering expertise in solution design and development possessing strong ability to generate creative ideas.

## Work Experience

### **INFOSYS LIMITED** as Technology Lead Jun 2015 to Till Date

Job Role: Solution Architect, leading a team of 15 members  
Client: A leading telecom service provider in the UK  
Overview: Conceptualize and implement a robust and scalable solution that helped the client achieve cent percent data quality w.r.t. its Inventory systems. This further helps streamline both the L2C and T2R journeys, leading to Right-First-Time provisioning and improved turnaround time and adherence to SLAs.  
This solution is a key component in the vision of transforming the organization into a digital organization.  
Responsibilities:  
Technical Delivery Manager and Solution Architect responsible for E2E delivery  
Scrum Master  
DevOps practitioner  
Leading a team of 15 members

### **TECH MAHINDRA** as Associate Technical Architect Jun 2014 to May 2015

Job Role: Design Lead  
Client: A leading telecom service provider in the UK  
Overview: Providing Service Assurance and Managed Network Surveillance to all third-party customers of the client globally. Bespoke solutions are designed as per specific customer needs.  
Responsibilities:  
Design Lead  
Requirement Analysis, High and Low Level system design  
Technical consultant for migration of the project infrastructure from Legacy systems towards a Virtual Data Centre  
E2E technical ownership of a highly sensitive and SLA-focused area dealing with service level monitoring of large financial institutions.

### **SYMPHONY TELECA** as Senior Engineer - Product Development Dec 2013 to May 2014
