## **Work Experience**

# **SOCIAL WORTH TECHNOLOGIES** as Software Developer Jan 2020 to Till Date

At my current position I am working as a java developer on AWS cloud platform. My responsibility's include building and managing features in Salary Card program (credit card) like transactions, reversals, etc where time of execution is absolutely crucial. Also involved in integration of external organizations with our applications ecosystem.

## Principal Global Services as Analyst

Jul 2018 to Jan 2020

Worked as a full stack developer for Principal Hong Kong. My responsibility in the project include developing Hong Kong specific application security features and adding support for special Chinese characters in the application.

Awarded SPOT Award for solving complex Chinese character issue. Leading a forum LIGHTNING TALKS for knowledge sharing within the organization.

Conducted sessions on Algorithms and Data Structures.
