Work Experience

Tieto India Pvt Itd. as Senior Software Engineer

Aug 2018 to Till Date

Developed couple of angular applications like Data Entry, Media Viewer. Developed .NET core API like EHR service. Worked in healthcare domain.

PROJECTS

EHR Service (09/2019 ? Present)

EHR is a .net core API service, which connects to better platform to fetch and save patient data as per openEHR standard.

Media Viewer (02/2020 ? 09/2020)

Media Viewer is an angular application, which will display multiple formats of documents with options like zoom, paging, printing and finding also can able to download unsupported formats.

Data Entry (10/2019 ? 12/2019)

Data Entry is angular application, which can create dynamic forms by simply reading JSON and save data against it. DataEntry can open any type openEHR forms and save data against it.

Yash Technologies Pvt ltd. as Senior Software Engineer

Jan 2016 to Jul 2019

One of the team member for onsite visit and executed initial sprint successfully for Deutsche bank, UK, Birmingham. Worked on complex asp.net mvc project. For Stanley Black & Decker.

PROJECTS

TARE SRM (09/2017 - 07/2019)

1/22/2021

TARE SRM is Tool Automation Reporting Environment for Service Request Management. This project includes automation of manual processes. In a large scale, organizations there will be many internal facility requests to be raised and approvals are required for them. So the approval process and request fulfillment need to be automated. Therefore, that requested user could track his request instead of doing follow up.

Access Quote Tool (06/2016 - 08/2017)

The Sales Quote tool application was implemented with base level of functionality. The Client have come up with a list of enhancements that will provide additional functionality, speed of use and other benefits to make the tool overall productive for the salesforce. The enhancements given are Line Item Drawings, Order Entry email recognition.

PLPS (02/2016 - 05/2016)

The scope of Product Launch Planner System is to create and update catalogue master, part master, part variant master and additional supporting master and functionality. Based on login role the menu items will be displayed

Softpal Technologies Pvt ltd. as Software Developer

Sep 2013 to Jan 2016

Worked in (CMS) Courier Management System domain

PROJECTS

CMS (09/2013 - 01/2016)

Courier Management System is a huge Courier Software that is used to transfer the objects from one place to another by giving unique id to object as 'Consignment Number' or 'POD Number' or AWB No' with details like location, service, mode of transfer, weight & cost etc..

There are customers like who sends consignments regularly. For them there are contracts prepared and separate cost for weight will be calculated at the time of adding consignments.
