## Work Experience

#### Unisys India Pvt. Ltd. as Software Engineer

Aug 2016 to Till Date

Coms Center Application

Technology: Vb.Net

Transaction Center is a Windows front end to Transaction Server. It combines the functions of the COMS Utility (to manipulate the Configuration File) with the functions of the Transaction Server operations interface.

WebAppSupport

This interface enables applications to call procedures in this library in order to perform: Process HTTP requests and return HTTP responses as WEBPCM applications Parse, create, modify, and transform XML documents Make HTTP requests to HTTP servers.

AISJAVA Java Environment

Technology: Java, C++

It is a set of Java classes and MCP libraries that allow Java Applications to access MCP services. The user?s Java applications run with a Commercial Off-The-Shelf (COTS) 64-Bit JJVM on a Windows OS.

#### Knorr-Bremse India Pvt Itd as Engineer

Dec 2014 to Dec 2015

Knorr-Bremse is a German manufacturer of braking systems for rail and commercial vehicles. I worked on data acquisition of braking system BCU (brake control unit), analyze the data for any deviations and resolve issues by providing solutions. I also worked on the Metro doors Testing and its software installation for RS9 project.

#### National Institute of Technology, Surathkal as Junior Research Fellow Oct 2013 to Dec 2014

I had worked on control strategy for remotely controlling a real time 440V motor using LabVIEW software. This project was individually handled by me and demonstrated the same for more than 200 students at NITK.
