Result oriented professional with experience in Software Engineering,Software Development,Project Management,Change Management,Defect Management,Quality Management,Requirement Gathering,Application Support,Bootstrap,JavaScript,PostgreSQL,Node.Js,Angular,HTML,CSS

## **Work Experience**

Cyient as Software Developer

Sep 2017 to Till Date

Designed and build Architecture and models for Angular Application thru Agile requirement gathering with monthly users of nearly 1000+. I also maintain codebase thru GIT, assist the REST API design, resolve web app issues reported by users thru Jira.

- Implemented Auto updaters and perform sync between PostgreSQL and Front end.
- Integrated ArcGIS API with angular and track the Jobs.
- Upload and retrieve files (images, pdf) in S3 using Nodejs.

TPDDL WFM, Software Developer

Developed and maintained web application in Java and worked on generating PDF's (in Angular) after Field users complete their Outages assigned. Performing sync operations between mobile users and web application every day.

- Part of maintenance & Deployment team to optimize the server load and perform enhancements.

AR/VR, Developer

Developed application using Unity3d as framework. Viewing towers and establishing connection between towers in 3D view. Posting and retrieving data from Couch DB database. Useful to know the real time towers are matched with simulated towers with their locations and connections.
