Expertise in using various open source frameworks and tools such as Spring, Spring boot, Hibernate, JPA, Spring Security, Spring JDBC Template, Activiti BPM, RabbitMQ, JMS, DB2 IBM MQ, IBM DB2, Kong.

Considerable amount of experience on RESTfull AND SOAP API.

Expertise in configure Linux production ready environment such as configure Apache tomcat PostgreSQL DB, RabbitMQ, Reverse Proxy, Apache HTTP.

## Work Experience

Atos as Senior Software Engineer

Apr 2015 to Till Date

**Project Handled** 

Title Bajaj Finserv Experia App

Technology Used

Framework: Spring, Hibernate, JPA, RESRfull Web Service, SOAP

Database: Orcle, MSSQL

Overview: This project is developed for Bajaj Finance to provide one-stop solution for Loan, EMI Cards, pre-approved

offers, payments and customer access information for loan and investment.

Responsibilities

Implementation RESTfull and SOAP Web Service.

Implementation of Third-party Payment Gateways like HDFC Bank UPI

Integrated with third Party Payment wallets

Integrated third party APIs communication using RESTfull and SOAP webservice.

Configure server for production ready Deployment.

Title Instaedge Digital Tranformation

Technology Used

Framework: Spring, Hibernate, JPA, RESRfull Web Service, SOAP

Tools: JMS, KONG, IBM MQ,

Database: IBM DB2

Overview: This project is developed for Electrolux Service center to provide customer relationship management, service and repair operations and after sales management. This application is integrated with backed system such as service

management, billing, spare part management.

Responsibilities

Implementation RESTfull and SOAP Web Service.

Implementation of database routing mechanism.

Integrate third party APIs communication using RESTfull and SOAP webservice.

Configuration of microservice using Kong.

Implementing the business logic.

Configure KONG API Gateway.

Configure server for production ready Deployment.

Title

mService - Field Service Mobility Application

Overview: mService is a cloud based filed application service management project. This project designed for Electrolux field service operations. mService application automates every step of the service process and helps organization to optimization of services call attended by filed technician.

Responsibilities

Implementation RESTfull Web Service.

Integration of Mobile and mobility workflow platform.

Implementation of Service and DAO layer.

Configure server for production ready Deployment.

Title

Havmor-SR

Overview: The Havmor-SR application is Business to Business Application. It facilitates havmor sales representatives in improving on-filed productivity and manage the business request approvals. The sales representatives request on-field service, the approval request is routed to all the required approvals according to the rules of approval process.

Understand user requirement and design the approver workflow.

Design BPMN 2.0 Business Workflow using eclipse Activiti plugin.

Implement Business delegates using spring.

Implementation RESTfull Web Service.

Integration of Mobile and mobility workflow platform.

Configure server for production ready Deployment.

Title IOT-PM Tools (Retail Automation).

Overview: This project manages all project management related activity; use this project as IOT Management for example

-Customer survey, product configuration, billing and delivery.

Understand user requirement and design the project management workflow.

Design BPMN 2.0 Business Workflow using eclipse Activiti plugin.

Implement Business delegates using spring.

Implementing the business logic.

Configure server for production ready Deployment.

#### **Education**

UG: B.Tech/B.E. (Information Technology) from Shivaji University in 2013

PG: PG Diploma (Computers) from AIT in 2015

Other Qualifications/Certifications/Programs:

Completed Diploma in Information Technology

### IT Skills

Skill Name	Version Last Used Experience

### **Projects**

Project Title: Bajaj Finserv Experia App

Client: Baiai Finance Limited Nature of Employment: Full Time Duration: Aug 2019 - Till Date Role: Sr. Programmer Onsite / Offsite: Onsite Team Size: 6

Skill Used: Spring Framework, Spring Security, JPA, Maven, Hibernate,

Project Details: This project is developed for Bajaj Finance to provide one-stop solution for Loan, EMI Cards, preapproved

offers, payments and customer access information for loan and investment.

Project Title: Instaedge Digital Tranformation

Client: Electrolux

Duration: Jul 2017 - Till Date Nature of Employment: Full Time Onsite / Offsite: Offsite

Skill Used: Spring, JDBC Template, JMS, KONG

Role Description: \* Implementation RESTfull and SOAP Web Service.

- Implementation of database routing mechanism.
- Integrate third party APIs communication using RESTfull and SOAP webservice.
- Configuration of microservice using Kong.

Project Details: This project is developed for Electrolux Service center to provide customer relationship management, service and repair operations. This application is integrated with backed system such as service management, billing, spare part Inventory.

Project Title: mService - Field Service Mobility Application

Client: Electrolux

Nature of Employment: Full Time Duration: Oct 2016 - Till Date Onsite / Offsite: Offsite

Skill Used: Spring, Hibernate, JPA, J2Ee Architecture, Rabbitmq Role Description: \* Implementation RESTfull Web Service.

- Integration of Mobile and mobility workflow platform.
- Implementation of Service and DAO layer.
- Configure server for production ready Deployment.

Project Details: mService is a cloud based filed application service management project. This project designed for Electrolux field service operations. mService application automates every step of the service process and helps organization to optimization of services call attended by filed technician.

Project Title: Havmor-SR Client: Havmor Ice Cream Ltd.

Nature of Employment: Full Time Duration: Jan 2016 - Oct 2016 Onsite / Offsite: Offsite Role: Programmer

Skill Used: Spring, Spring Security, Hibernate, JPA, Activiti BPM Role Description: \* Understand user requirement and design the approver workflow.

- Design BPMN 2.0 Business Workflow using eclipse Activiti plugin.
- Implement Business delegates using spring.
- Implementation RESTfull Web Service.

Project Details: The Havmor-SR application is Business to Business Application. It facilitates havmor sales representatives in improving on-filed productivity and manage the business request approvals. The sales representatives request on-field service, the approval request is routed to all the required approvals according to the rules of approval process.

Project Title: IOT-PM Tools (Retail Automation).

Client: Atos India Pvt Ltd

Nature of Employment: Full Time Duration: May 2015 - Dec 2015 Role: Programmer Onsite / Offsite: Offsite

Understand user requirement and design the project management workflow.

- Design BPMN 2.0 Business Workflow using eclipse Activiti plugin.
- Implement Business delegates using spring.
- Implementing the business logic.

Project Details: This project manages all project management related activity; use this project as IOT Management for example Customer survey, product configuration, billing and delivery.
