Work Experience

Accenture as Software Engineer (Java backend)

Feb 2019 to Till Date

Working as a Software Engineer in Accenture Bangalore with 2 years of experience in the Banking and Insurance Domain. Skilled in Java, Microservices, Spring, Hibernate, JPA, Spring Boot, Service Oriented Architecture, REST API design, SQL databases, Queues, Object-Oriented Programming.

Accenture as Software Engineer (Java backend) Feb 2018 to Feb 2019

(Travelers Insurance) Mar 2019 - Present (6 months)

Worked as a Java developer in the PI External Services Team. I have worked on different microservice components using spring Boot, making Restful webservices and handling calls to Restful webservices. I have used SoapUI and postman for handling Soap and Rest Calls. I have used Intellij as the primary editor and GIT as the primary repository. I have also worked on Splunk logging to enable logging mechanism in the microservice components.

(Liberty Mutual) Nov 2018-Feb 2019(4 months)

Worked on core and java and microservices with Spring boot. I have done excel sheet automation where we need to gather data from one excel sheet and put it into another excel based on some client requirements.

Also there are 4 microservices where we need to manage the xml data coming from the S3 bucket and do a post call to the INET service where basically we are comparing two pdfs generated and managing the difference count in an excel sheet.

Education

UG: B.Tech/B.E. (Computer Science and Engineering) from Nitte Meenakshi Institute of Technology, Bangalore in 2018
