Nihilent as Senior Software Engineer Feb 2019 to Till Date

Nihilent Ltd. as Senior Software Engineer Feb 2019 to Nov 2020

Projects

Incentivization and Loyalty Management Platform

ILMP is a one stop reward and loyalty management solution which comprises a web app (For Enterprises) to create and manage campaigns as well as mobile app (For Influencers) to scan and redeem QR codes obtained while using the product, thereby encompassing major reward management challenges and reaching out to the bottom of the pyramid.

Language / Tool Used: MVC, C#, jQuery, ADO.Net, Entity Framework, JavaScript, SQL,HTML, WebAPI, Multi-tenant Database, Azure Clouds

CAS (Competency Assessment System)

Competencies refer to skills and knowledge that lead to superior performance. Competencies are individual capabilities or characteristics that are key to effectiveness in work.

Language / Tool Used: Asp.net, C#, ADO.Net, JavaScript, SQL-Server Database

Ampinity It Services Pvt. Ltd. as Software Developer Jul 2017 to Feb 2019

Projects

Aimrich Bit Trade (aimrichbittrade.com)

Multi-level marketing system works through network of thousands of independent distributors. Distributors make money not only by selling goods and services but also recruiting other salespeople and receive commissions or bonuses on the sales of those distributors - their down - line organization. Therefore, distributor A receives commission at multiple levels in the organization and it is true for other distributors. Distributor A is up - line to distributor.

Language / Tool Used: ASP.NET MVC5, C#, Dapper, Bootstrap, JavaScript, SQL, HTML

Life Set India (lifesetindia.com)

The main objective of this project is to provide a provision for the members to purchase product from online which saves lot of time for the members. The other main objective is to provide all transaction details online so members can check their transaction online. User may register first on website, as soon as a new member registers on website he needs to pay a fee. User sees the user register under him when he logs in; when a user is registered under him, he gets 20% of registration charges.

Language / Tool Used: ASP.NET MVC5, C#, Dapper, Bootstrap, JavaScript, SQL, HTML

MLM (o3shopping.org)

Multi-level marketing (MLM) (also called network marketing (NM) or matrix marketing) is a business model which utilizes a combination of direct marketing and franchising. Typically, independent business owners become associated with a parent company in a contractor like relationship. For registration, one needs to purchase any welcome package then one will be able to get income. Every welcome package has a business volume, more selling and purchasing with friends and relatives one can earn more and more.

Language / Tool Used: C#, SQL Server, ASP.Net, ADO.Net
